Date	Description	Amount (s)	Balance (s)
04 Oct	Deposit: Hall E	+124,475	37,932,139
	A query on the 4th deposit: the counter slip was keyed a day late and the machine tape a day early. Both are correct for the branch that keyed them, and the difference has been recorded as the branch's own calendar. Ref. CIBT-3003-8D56-9		
11 Oct	ATM withdrawal: Io	-259,200	37,672,939
	Hollis Yeboah remarks that the machine has been dispensing for longer than the branch has had a name, and has never once asked to be thanked. Ref. CIBT-3003-D028-0		
12 Oct	Slippage fee (Io, 9 transfers)	-2,700	37,670,239
	A waiver for the slippage on 9 transfers appears on this statement because the auditors asked for one, having found no other way of accounting for the seconds. Ref. CIBT-3003-9961-5		
18 Oct	Turbulence Cover	-23,032	37,647,207
	You file your Turbulence Cover claim before each journey rather than after it, with a description of the turbulence you expect. The claims office has not yet had occasion to pay one, and the underwriters have begun to ask you about the forecast. Ref. CIBT-3003-5A63-1		
24 Oct	Payroll credit: Brymar College	+190,162	37,837,369
	An instalment from Brymar College on the 24th, paid into Hall E. The employer's office has asked us to note that the figure includes a travel allowance for 2 transfers between stations. Ref. CIBT-3003-167E-5		
24 Oct	Transfer to joint account	-114,097	37,723,272
	The Teller says a joint account is a wager that two people will still be sitting at the same counter in fifty years, and that the Bank has taken the wager on both sides and is not permitted to say which it favours. Ref. CIBT-3003-9D9B-6		
31 Oct	Interest at 4.40% APY	+138,628	37,861,900
	Interest accrued on every day of the month, the quiet days included. It is paid now, with a note that the account was never idle: the interest was working, and it has been paid for the work. Ref. CIBT-3003-D2D4-6

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
