Date	Description	Amount (s)	Balance (s)
01 Oct	ATM withdrawal: Phobos	-259,200	75,864,239
	The Phobos machine prints the local count first and the Earth figure beneath it, in a smaller type, for visitors who have not yet learnt that they are visitors. You have read both and said nothing, which the custodian records as a yes. Ref. CIBT-2999-A5B9-2		
06 Oct	Payroll credit: the Lagrange Four Commissary	+340,372	76,204,611
	The Lagrange Four Commissary credit includes the first instalment of a bonus agreed in the spring and paid in the autumn. The Bank does not comment on whether the bonus was earned, only on when it arrived. Ref. CIBT-2999-9F59-8		
20 Oct	Deposit: Hall E	+839,231	77,043,842
	The deposit was held 31 days because its envelope had been sealed with wax, and the counter would not open a seal it could not check. It was opened in the presence of two officers, and the seal is kept on file. Ref. CIBT-2999-613D-3		
22 Oct	Slippage fee (Phobos, 2 transfers)	-600	77,043,242
	The Lagrange Four Commissary routes its transfers through a relay of its own, and the fee on each crossing is passed to you on this statement with the firm's name beside it, in a smaller type than the seconds. Ref. CIBT-2999-8678-2		
31 Oct	Interest at 3.50% APY	+222,026	77,265,268
	The statement reached you 29 days late, because the interest had been credited before the period it belonged to had been opened. The Bank has put the dates in order, and the figures shown are the ones it carried. The statement was held through the change of shift, which is long on that world while this was done. Ref. CIBT-2999-48E5-1

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
