Date	Description	Amount (s)	Balance (s)
09 Jun	New Time™ exchange	+34,556	54,679,154
	A standing recall of 0.989 a day runs against your New Time™ from the date of the notice, so the holding is smaller by the second while you read this line. The figure will be the same next month, at a rate nobody has been able to explain to anyone's satisfaction. Ref. CIBT-3025-63E9-3		
14 Jun	Deposit: Hall E	+4,020,021	58,699,175
	The Ganymede deposit came in a sealed tube, which the window opened before two officers and a relay operator who had not expected to be asked. The sum was credited in full, and the tube is filed with the slip. Ref. CIBT-3025-2C64-5		
17 Jun	ATM withdrawal: Montréal Sector	-259,200	58,439,975
	An instalment of 259,200 is drawn at Montréal Sector on the 17th. It is the eleventh of its kind this year, the same sum each time, which is why the machine no longer asks you to confirm it. Ref. CIBT-3025-D047-5		
23 Jun	Payroll credit: the Lagrange Four Commissary	+340,372	58,780,347
	The Lagrange Four Commissary writes its remittance advice in pencil on a card that has been used for 52 years, and the figure on it is the figure we posted. Nobody at the office has said why the card is still in service, and the Bank has not asked. Ref. CIBT-3025-BDC0-1		
27 Jun	ATM withdrawal: Montréal Sector	-172,800	58,607,547
	The auditors matched this withdrawal against the machine's own log, the relay's and the branch's, and found all three recording the same 14 seconds of delay. They asked for the three to be kept together, and they now are. Ref. CIBT-3025-F3A6-2		
30 Jun	Interest at 3.50% APY	+159,380	58,766,927
	Interest is credited on the first morning of each period at 3.50% APY, and has been since 3020, when the account was opened with a sum nobody has since been able to name. Every second of it has come from the interest, which the Bank describes as the account's only habit. Ref. CIBT-3025-39CD-5

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
