Opening balance	Credits	Debits	Closing balance
45,922,438 s	**+179,862 s**	**-2,151,050 s**	**43,951,250 s**

Date	Description	Amount (s)	Balance (s)
03 Aug	Slippage fee (Luna, 4 transfers)	-2,400	45,920,038
	4 transfers came to 2,400 seconds in all, which the officer describes as the smallest amount she has ever had to explain at such length. Ref. CIBT-3012-EEE0-3		
09 Aug	Turbulence Cover	-13,388	45,906,650
	Each month you pay the premium in exact coin, and the counter has learned to count it while the carrier's whistle is still going. The underwriters have asked the carrier to stop whistling and have been told it will stop after the next crossing. Ref. CIBT-3012-D125-8		
20 Aug	Transfer to own account: Luna	-1,819,858	44,086,792
	This sundry was raised on the 20th but dated to the day its form was witnessed, which was 30 days later at the far end of the hall. The witness was not late; the form had been left on a chair. Ref. CIBT-3012-4BE8-1		
22 Aug	ATM withdrawal: Luna	-172,800	43,913,992
	You take days from the machine at Luna rather than from the counter, always the smallest denomination it offers. The officer at Hall E asked whether this is a preference or a rule. You said it was a habit, which is the same thing with less paperwork. Ref. CIBT-3012-4C69-8		
25 Aug	Transfer to joint account	-142,604	43,771,388
	Keyed from a form filled in before the transfer was agreed, the date on the 25th line was wrong. The transfer was made on the date on the receipt, which is the date that counts, and the form has been filed with the correction. Ref. CIBT-3012-4270-3		
31 Aug	Interest at 4.70% APY	+179,862	43,951,250
	The auditors who went through the Hall E ledgers this year asked why this line was one second short of the reckoning. The answer is on file: the first second of the period is not counted, by agreement, and the auditors have accepted it with some reluctance. Ref. CIBT-3012-5EEA-4

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
