Period 1–31 July 2991
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
162,395,359 s	**+1,831,755 s**	**-9,430,576 s**	**154,796,538 s**

Date	Description	Amount (s)	Balance (s)
05 Jul	Payroll credit: Harbourfront Shipping	+1,028,618	163,423,977
	Harbourfront Shipping's wages for the period came in sols and were converted at the posted rate on the day they landed, a day after the employer's own pay day. Its office says the delay was an accident, and the Bank has booked it as one. Ref. CIBT-2991-1DD4-0		
05 Jul	Temporal Health Plan	-42,498	163,381,479
	A consultation on your last statement appeared with two dates, one for the booking and one for the visit. The visit date is correct, and the booking date has been removed. Ref. CIBT-2991-9D01-5		
25 Jul	Mech Veterans' Time Pension	+329,484	163,710,963
	An earlier line showed the pension paid on the 25th. It was paid on the 25th of the month before, and the statement now gives the date it was really paid, with the first date struck through. Ref. CIBT-2991-6D36-0		
30 Jul	Transfer to own account: Mars Station	-9,388,078	154,322,885
	The transfer from Bram Valderrama was sent with a reference in sols and a sum in seconds, and the clerk at Hall E asked for both to be the same. They were not. The sum has been posted as sent, and the reference has been left as it came. Ref. CIBT-2991-AA9D-8		
31 Jul	Interest at 3.50% APY	+473,653	154,796,538
	You withdraw the interest the moment it posts and put the same sum back by the next morning. The Bank records this and does not discourage it. This month the sum went back in at Mars Station, a branch you had not used before. Ref. CIBT-2991-D936-3

August 2990 July 2991

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
