Date	Description	Amount (s)	Balance (s)
06 May	Transfer to own account: Venus	-8,418,831	95,373,597
	A refund of 8,418,831 came in from Odile Prendergast in a flat tin that had once held throat lozenges, with a note reading only "for the coffee". The Bank has posted it under refunds, since the coffee was never bought at the counter, and the officer has asked Odile Prendergast whether the coffee was worth it. Ref. CIBT-2979-B4EB-2		
20 May	ATM withdrawal: Venus	-86,400	95,287,197
	The machine at Venus dispenses days from a drawer fitted before the station had its first oxygen plant, and nobody has asked it to change its stock. Your withdrawal was paid from that drawer, which the custodian describes as sound. Ref. CIBT-2979-613B-9		
28 May	Payroll credit: Phobos Drydock	+1,294,582	96,581,779
	Phobos Drydock pays from a dock that keeps no day the Bank recognises. The wage arrives on the dock's own day, which the Bank converts into the nearest Standard day and sends on without comment. Ref. CIBT-2979-B59B-1		
28 May	Slippage fee (Venus, 8 transfers)	-7,200	96,574,579
	Crossings are reckoned on the relay's clock, which keeps its own time over a lamp wick turned down by someone who wanted the room dark and does not expect to be consulted. The fee of 0.30 seconds is the difference between that time and ours. Ref. CIBT-2979-7EA8-4		
31 May	Interest at 3.70% APY	+320,026	96,894,605
	You have paid the same sum into this account on the 31st of every month since 2974, and each payment has earned from the day it landed, which the Bank has checked against the standing order and found to match. Ref. CIBT-2979-EC1A-9

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
