Opening balance	Credits	Debits	Closing balance
172,359,594 s	**+1,826,024 s**	**-4,865,635 s**	**169,319,983 s**

Date	Description	Amount (s)	Balance (s)
01 Aug	ATM withdrawal: Mars Station	-259,200	172,100,394
	A withdrawal made at the weekend at Mars Station carries a note from the concourse officer: the machine was over-generous that day, and it has been recalibrated. Nothing has been asked back. Ref. CIBT-2987-6061-3		
01 Aug	Transfer to own account: Mars Station	-4,520,035	167,580,359
	You pay every sundry in the exact sum, never a coin over. The counter stopped giving change some years ago and started giving thanks, which you say you prefer. Ref. CIBT-2987-9CDC-7		
06 Aug	Payroll credit: Phobos Drydock	+1,294,582	168,874,941
	The Phobos Drydock credit was posted to 8564-1663-9040 in error, because the ledger closed with the transfer still on the wire. It belonged to 8564-6771-1789; the two accounts have been reconciled and the sum moved, with no change to the amount. Ref. CIBT-2987-D8E7-6		
25 Aug	ATM withdrawal: Mars Station	-86,400	168,788,541
	Your receipt is folded in quarters before you leave the machine, a habit the custodian has noted on three service visits and has been unable to improve. The folds are kept with the statements, in order. Ref. CIBT-2987-2FFC-5		
31 Aug	Interest at 3.70% APY	+531,442	169,319,983
	Interest on the Moon side of the account is computed on the lunar day, which is nearly a month of ours, and paid out once for each half of it. The statement shows both halves, and the officer has been asked to keep them in the one pencil. Ref. CIBT-2987-E3CF-5

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
