Date	Description	Amount (s)	Balance (s)
09 Dec	Deposit: Hall E	+119,488	10,258,547
	The deposit you make each 9th of the month is made in person by standing arrangement, and the counter has set its shifts so that someone is always free to take it. The arrangement is not written down; it is simply observed. Ref. CIBT-2995-4FDD-5		
17 Dec	Payroll credit: St. Catherine Bakeries	+167,743	10,426,290
	A wage paid in sols is converted to whole seconds at the posted rate, and any fraction under one second is shown on the statement as a dash. Yours was a dash, which the statement treats as a complete figure and the rule treats as a question still open. Ref. CIBT-2995-AC88-1		
21 Dec	ATM withdrawal: Mars Station	-259,200	10,167,090
	The rounding rule for cash-time at Mars Station runs to four clauses, and the machine applies all four, though only the first is printed on the receipt. The second has kept the holder's balance in order since 2994. Ref. CIBT-2995-DF4A-2		
29 Dec	ATM withdrawal: Mars Station	-172,800	9,994,290
	You asked the Bank to say which way the withdrawal had been rounded. It was rounded both ways, once by the machine and once by the Bank. The two roundings came to 0.951, and the Bank has kept neither. Ref. CIBT-2995-3B5C-4		
31 Dec	Interest at 3.40% APY	+28,727	10,023,017
	For the auditors: the interest on this account was checked against the balance curve twice and by hand once, and all three agree. The officer has initialled the copy and fastened it with an old clip gone green at the edge, and asks that nothing further be done to it. Ref. CIBT-2995-5C11-5

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
