Date	Description	Amount (s)	Balance (s)
10 Jun	Slippage fee (Luna, 8 transfers)	-7,200	14,518,771
	Your 8 transfers waited 31 Standard days at the Luna relay, which had decided to hold all crossings until its clock had been checked against a second clock. The second clock was found in a drawer, the transfers were released, and the fee is charged for the crossings and not for the drawer. Ref. CIBT-3013-BF77-5		
11 Jun	ATM withdrawal: Luna	-259,200	14,259,571
	Note to the auditors: the 3 Standard days withdrawal at Luna was entered twice in the first run of the month, once from the machine and once from the relay's copy. The duplicate has been struck, and the account has not been charged twice for the same cash. Ref. CIBT-3013-5614-7		
18 Jun	ATM withdrawal: Luna	-259,200	14,000,371
	You leave the receipt face down on the tray, so the next customer must turn it over to read the sum. The custodian counts this as a courtesy and has never mentioned it to you. Ref. CIBT-3013-A06C-3		
22 Jun	Deposit: Hall E	+1,009,775	15,010,146
	A deposit of 1,009,775 was taken from the holder's pay before the pay had been counted, on the strength of the employer's slip. The count, when it came, agreed to the second, and nobody at the window mentioned the order of events. Ref. CIBT-3013-768A-9		
30 Jun	Interest at 3.40% APY	+41,156	15,051,302
	You read the interest line before anything else on each statement, and then read the rest in the same order as before. The Teller has noted that the habit has not changed since 3010, and sees no reason it should. Ref. CIBT-3013-9AFC-8
