Date	Description	Amount (s)	Balance (s)
03 Aug	Transfer to joint account	-57,941	18,289,253
	The monthly transfer was delayed 31 days because one holder's surname had been changed, and the Bank needed a witness to confirm that it was the same person. The witness confirmed it on the 3rd, and the holder's name was found to be unchanged in every way that counts. Ref. CIBT-3029-929C-7		
09 Aug	Payroll credit: Montréal Sector Transit	+96,569	18,385,822
	A wage paid in days is converted to whole seconds at the posted rate, and any fraction under one second is shown on the statement as a dash. Yours was a dash, which the statement treats as a complete figure and the rule treats as a question still open. Ref. CIBT-3029-765D-6		
25 Aug	Deposit: Hall E	+2,112,095	20,497,917
	The Ganymede desk sends deposits in a tube of its own design, which the window opens before two officers and a relay operator. The sum arrives in days, is converted at the posted rate and credited, and the tube is the only part of the transaction anybody admires. Ref. CIBT-3029-2B9A-4		
30 Aug	Slippage fee (Tallinn Sector, 2 transfers)	-1,200	20,496,717
	The 2 crossings were made for Montréal Sector Transit, whose payroll runs on the Tallinn Sector relay's clock. The fee follows the payroll, the payroll follows the relay, and the Bank has been asked to explain this to nobody in particular. Ref. CIBT-3029-BF4F-4		
31 Aug	Interest at 4.40% APY	+67,273	20,563,990
	The teller worked the interest out on the back of a counter slip, rounded it down to the whole second, and wrote beside it in pencil: close enough for a bank. Ref. CIBT-3029-08CC-4

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
