Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
13,017,929 s	**+162,518 s**	**-122,101 s**	**13,058,346 s**

Date	Description	Amount (s)	Balance (s)
06 Aug	Transfer to own account: Singapore Sector	-46,822	12,971,107
	The rate applied to this sundry was the rate of the previous quarter, which the teller noticed and reported to Bram Bracegirdle. The difference of 0.30 seconds has been credited back to you in full, and the old rate has been withdrawn from the table it came from. Ref. CIBT-2989-E28B-1		
20 Aug	Payroll credit: Kepler Ring Hydroponics	+123,465	13,094,572
	Wages from the Singapore Sector mining office are converted at a rate the office sets itself, once a year, on the day of its founding. The Bank does not object to the day. It asks only that the rate be posted before it arrives. Ref. CIBT-2989-9177-6		
27 Aug	Transfer to joint account	-74,079	13,020,493
	Singapore Sector keeps a different day from ours, so the joint transfer is posted there one day ahead and here one day behind. Both holders agreed to this at Hall E, where an officer explained it with a diagram that neither has since been able to fold. Ref. CIBT-2989-9384-6		
29 Aug	Slippage fee (Singapore Sector, 4 transfers)	-1,200	13,019,293
	The fee on 4 crossings has been reduced by 1,200 seconds, because two transfers were sent on the same day from the same branch. The saving belongs to the Bank, and the Bank has passed it on. Ref. CIBT-2989-2F84-8		
31 Aug	Interest at 3.60% APY	+39,053	13,058,346
	The Teller converted the interest into hours at the counter, which made it look larger, and then into seconds, which made it look correct. She asks that the conversion be recorded as a courtesy to both. Ref. CIBT-2989-071D-0		

Closing balance, month by month

September 2988 August 2989

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
