Soren Blackwood
Unit 23, Pallas Ring 10

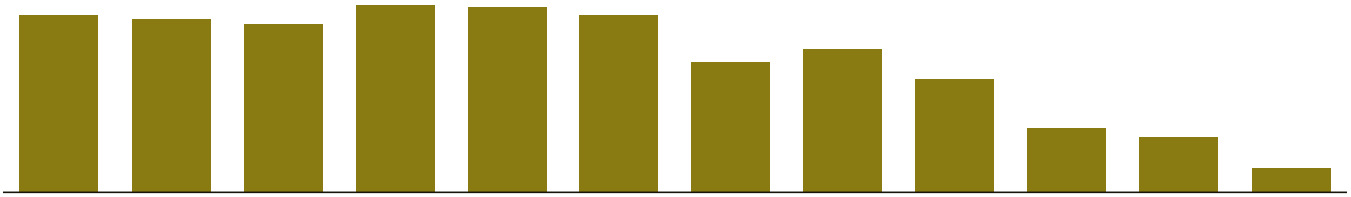

Account 8564-2001-5708
Period 1–31 August 2992
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
15,039,768 s	**+45,119 s**	**-654,497 s**	**14,430,390 s**

Date	Description	Amount (s)	Balance (s)
03 Aug	Event II restoration adjustment	-75,595	14,964,173
	Restoration adjustment under the Rider. Adjustments of this kind cannot be disputed until the Task Force has published its reasons. Ref. CIBT-2992-7B5A-3		
09 Aug	ATM withdrawal: Singapore Sector	-86,400	14,877,773
	On Mars the cash-time machine asks which day you mean before it will pay, since the sol and the Standard day seldom end together. Your One Standard day was paid on the second question, which the machine prefers. Ref. CIBT-2992-B8E2-5		
09 Aug	Transfer to own account: Singapore Sector	-243,823	14,633,950
	Duty on a gift of 243,823 to Ines Umberfield, set by the Authority and paid at the counter. The gift was received without remark, and the duty was paid with the sort of reluctance the Authority has come to expect from this branch. Ref. CIBT-2992-B186-9		
13 Aug	Transfer to joint account	-74,079	14,559,871
	Funds for the joint account arrived at Singapore Sector a day early, because the local office sends its share on the eve of the due date. Nothing is charged for the day; it is the relay's way of being prompt. Ref. CIBT-2992-D1F4-3		
22 Aug	ATM withdrawal: Singapore Sector	-172,800	14,387,071
	On the 22nd the machine at Singapore Sector offers you the draw it offered last month. You take it, and the machine is left with the impression that you have never once been surprised by it. Ref. CIBT-2992-9432-4		
29 Aug	Slippage fee (Singapore Sector, 2 transfers)	-1,800	14,385,271
	A crossing that begins at the Singapore Sector relay is charged on the day it starts on Mars, which is not always the day it ends on Earth. The Teller has explained this twice, and the Bank regards it as settled. Ref. CIBT-2992-B874-3		
31 Aug	Interest at 3.60% APY	+45,119	14,430,390
	Your employer's payroll reaches this account on the 31st, and interest runs from the day it arrives, not from the day it left Kepler Ring Hydroponics. The payroll office has been told so and has replied that it is aware of the arrangement. Ref. CIBT-2992-CDA1-3

Highest 17,627,001 s · lowest 14,430,390 s

September 2991 August 2992

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
