Opening balance	Credits	Debits	Closing balance
13,618,468 s	**+862,738 s**	**-335,979 s**	**14,145,227 s**

Date	Description	Amount (s)	Balance (s)
02 May	Payroll credit: Kepler Ring Hydroponics	+123,465	13,741,933
	Kepler Ring Hydroponics has moved its pay office to a station where the shifts run longer than ours. The wage now arrives in two halves on two different days, which the firm's staff have agreed to call one payment. Ref. CIBT-2999-F2F5-4		
06 May	Deposit: Hall E	+698,418	14,440,351
	The two officers who counted the deposit of 698,418 at Hall E agree with the machine's count to the second. The slip is filed in the box for the 6th, cross-referenced to the day book, and initialled on both sides. Ref. CIBT-2999-C1FE-6		
07 May	Transfer to joint account	-74,079	14,366,272
	Nothing was charged for the paper slip that came with the transfer to 8564-2788-9303. Both holders had signed it, one above the other, and the officer said that was the only signature the slip needed. Ref. CIBT-2999-7B86-2		
20 May	ATM withdrawal: Mars Station	-86,400	14,279,872
	The machine at Mars Station stands out of doors under a glass hood and pays only when the light is above the ridge. Your withdrawal was made 31 Standard days after the request, on the first morning the ridge allowed it. Ref. CIBT-2999-A21A-0		
23 May	ATM withdrawal: Mars Station	-172,800	14,107,072
	Correction explained: the receipt for your 2 Standard days withdrawal at Mars Station gave the time as the machine's own clock, which was 23 seconds fast. The withdrawal is recorded at the Head Office clock, which is the one that counts for statements. Ref. CIBT-2999-84F1-8		
27 May	Slippage fee (Mars Station, 3 transfers)	-2,700	14,104,372
	Asked why this crossing cost more than the last, the officer said the seconds had further to go, and that she could not do more for them. The fee has been confirmed twice over, and the officer has nothing to add to the answer she gave. Ref. CIBT-2999-7AC7-3		
31 May	Interest at 3.60% APY	+40,855	14,145,227
	You have not withdrawn your interest in any year since 2997, and it has been credited to your balance at the close of every Pallas Ring 10 day. It now exceeds the principal you first deposited, which you have asked us to confirm for the file. Ref. CIBT-2999-66D5-0		

Closing balance, month by month

June 2998 May 2999

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
