Soren Blackwood
Unit 69, Pallas Ring 10

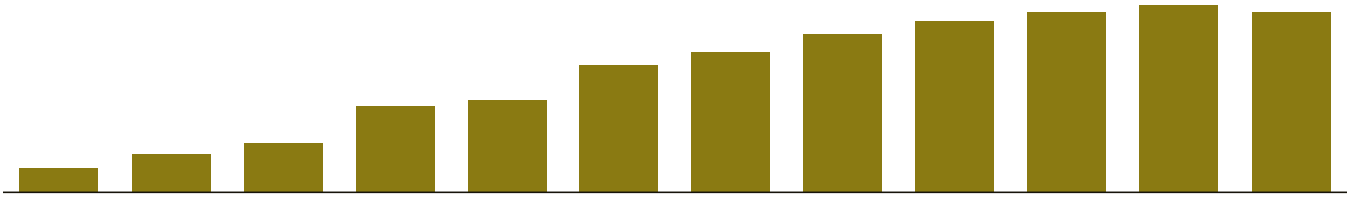

Account 8564-2001-5708
Period 1–31 December 3003
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
11,654,450 s	**+158,428 s**	**-346,315 s**	**11,466,563 s**

Date	Description	Amount (s)	Balance (s)
06 Dec	Slippage fee (Luna, 5 transfers)	-4,500	11,649,950
	For the auditors: the slippage on 5 crossings was checked against the relay's log, the Settlement Reserve's copy and the branch's own record. The three agree on the fee and disagree on the crossings, and the auditors have asked which is right. The crossings are. Ref. CIBT-3003-D063-9		
11 Dec	Transfer to joint account	-74,079	11,575,871
	Mars-side transfers on the joint account arrive in days, and each holder's share is converted at the posted rate on the day it lands. The holders asked for the conversion to be shown on a separate line, and it is. Ref. CIBT-3003-35E2-1		
23 Dec	Payroll credit: Kepler Ring Hydroponics	+123,465	11,699,336
	Standing credit from Kepler Ring Hydroponics, for the same sum as last month and the month before. Nothing in the remitter's file has altered since the first of the series, and the Bank has not asked it to. Repeats are posted as they arrive; the Bank is not in a position to say whether they will stop. Ref. CIBT-3003-E016-8		
23 Dec	Transfer to own account: Luna	-8,536	11,690,800
	A sundry credit of 8,536 appears here with no originating account. It has been carried forward from the last statement, as credits of this kind are, and will be carried forward again unless someone asks about it. Ref. CIBT-3003-CF38-2		
28 Dec	ATM withdrawal: Luna	-259,200	11,431,600
	The Phobos machine is bolted to a rock that passes over the Head Office's relay for only part of each orbit, and it pays out only inside that part. Your withdrawal was made in the window and posted in the next. Ref. CIBT-3003-4290-5		
31 Dec	Interest at 3.60% APY	+34,963	11,466,563
	The Teller has written on the back of the copy, which is held with a clip that holds only the first page, that the figure was worked from the wrong morning's balance. She regrets the error, and the correct balance is shown here, with the sum it produces. Ref. CIBT-3003-EFCA-9

January 3003 December 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
