Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
11,703,303 s	**+35,109 s**	**-549,290 s**	**11,189,122 s**

Date	Description	Amount (s)	Balance (s)
06 Mar	Transfer to own account: Mars Station	-185,901	11,517,402
	The Mars Station desk raises its sundries in sols and sends them to us in seconds. The conversion is made when the desk closes its books, some hours after our own have closed, and the 0.965 shown here is the difference as the desk calculated it. We have not improved on the desk's arithmetic. Ref. CIBT-3006-67F5-3		
11 Mar	ATM withdrawal: Mars Station	-86,400	11,431,002
	The withdrawal was held 29 days because the clerk who signs for the machine's cash was on a shuttle, and the shuttle keeps its own timetable. The cash was paid the morning she landed. Ref. CIBT-3006-12A0-3		
19 Mar	Lyric Licensing Desk	-114,410	11,316,592
	Auditors note that this verse has been licensed by the same Desk, in the same name, for 10 years, and that in none of those years has it been performed by anyone its holder could name. The licence is in good standing and the holder is a matter the auditors are not authorised to settle. Ref. CIBT-3006-A839-0		
28 Mar	ATM withdrawal: Mars Station	-86,400	11,230,192
	For 30 Standard days the Mars Station machine was switched off while a new fuse was fitted. The Bank went on accepting your requests for cash during that time, and held them until the machine was switched on again. Ref. CIBT-3006-DAAF-9		
28 Mar	Slippage fee (Mars Station, 7 transfers)	-2,100	11,228,092
	Two crossings on the same day were treated as one, because they went through the same relay, and the fee was rounded to a single whole second. The rounding is the Bank's; the seconds it saved are yours. Ref. CIBT-3006-C03E-6		
29 Mar	Transfer to joint account	-74,079	11,154,013
	The joint transfer on the 29th shows one holder's name alone. The mandate requires two, and the second signature was on the slip, filed under the page before; the record has been corrected to show both. Ref. CIBT-3006-92A6-7		
31 Mar	Interest at 3.60% APY	+35,109	11,189,122
	Interest on Mars Station accrues on the station's own day, which runs a little slow, so the day's interest is posted in the morning rather than at close. It comes to the same sum by the end of the month, having taken a little longer to arrive. Ref. CIBT-3006-2152-3		

Closing balance, month by month

April 3005 March 3006

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
