Period 1–31 May 3006
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
10,843,163 s	**+155,994 s**	**-939,154 s**	**10,060,003 s**

Date	Description	Amount (s)	Balance (s)
09 May	Transfer to own account: Kepler Ring	-692,275	10,150,888
	Last quarter's sundry was described as a withdrawal from a tea account. There is no tea account; the holder's savings were called that in a joke at the counter in 3005, and the officer has removed the word from the register, though not, she says, from the holder. Ref. CIBT-3006-A3D3-6		
14 May	Payroll credit: Kepler Ring Hydroponics	+123,465	10,274,353
	Pay from Kepler Ring Hydroponics at Kepler Ring was converted on the day the crew came off the line. The local office considers that the day of the wage, and the Bank considers it the day the wage could be proved. Both views are on file. Ref. CIBT-3006-60F3-4		
16 May	ATM withdrawal: Kepler Ring	-172,800	10,101,553
	The quarterly draw of 2 Standard days at Kepler Ring is paid to the holder in the presence of nobody. The machine has been asked to wait for a witness, and has declined on the grounds that it is one. Ref. CIBT-3006-78EF-1		
22 May	Transfer to joint account	-74,079	10,027,474
	Kepler Ring Hydroponics sent its share with a note asking that the sum be described as a contribution rather than a wage. The Bank has described it as a sum, which is what the note's own covering line says it is. Ref. CIBT-3006-C565-8		
31 May	Interest at 3.60% APY	+32,529	10,060,003
	The fee on the 26 seconds of interest carried over from last period has been waived. It was not large, and nobody was owed it, and the Bank would rather not explain the difference. Ref. CIBT-3006-5112-2

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
