Period 1–31 August 3008
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
12,590,185 s	**+161,235 s**	**-331,439 s**	**12,419,981 s**

Date	Description	Amount (s)	Balance (s)
01 Aug	Payroll credit: Kepler Ring Hydroponics	+123,465	12,713,650
	The employer's covering letter was signed in green ink. The Bank does not regard green ink as a signature, but the employer does, and the Teller has filed the letter under both views. Ref. CIBT-3008-C06A-7		
06 Aug	Slippage fee (Phobos, 4 transfers)	-2,400	12,711,250
	The Phobos relay has written to say it will bill your 4 crossings in sols from now on, having found the Standard seconds too tidy. The Bank has agreed, and will bill you accordingly from the next statement. Ref. CIBT-3008-8D0F-5		
15 Aug	Transfer to joint account	-74,079	12,637,171
	Ines Umberfield's share of the Kepler Ring Hydroponics pay arrives in sols from Phobos and is converted at the morning rate the Bank posts. The conversion has been made at the posted rate on every occasion, which the account finds reassuring. Ref. CIBT-3008-F767-7		
22 Aug	ATM withdrawal: Phobos	-172,800	12,464,371
	The Teller says the machine was civil this time, and asks that the Bank not take this as a precedent. Ref. CIBT-3008-727B-9		
25 Aug	Transfer to own account: Phobos	-82,160	12,382,211
	The internal audit found this item sitting between two others that were both correct, which it thought worth recording. It has been reconciled and now sits alone, which the audit regards as tidier. Ref. CIBT-3008-3C5D-2		
31 Aug	Interest at 3.60% APY	+37,770	12,419,981
	The interest for 30 days was held up because the Rate Committee's table was printed in sols and had to be turned back into seconds by a clerk who was not sure which way the conversion ran. It ran the right way once it was checked, and the clerk has asked for a column in the table to say which way. Ref. CIBT-3008-368F-4

September 3007 August 3008

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
