Unit 198, Pallas Ring 10

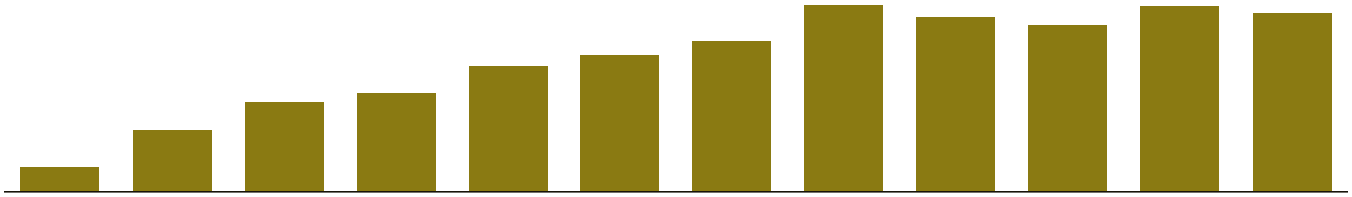

Account 8564-2001-5708
Period 1–28 February 3010
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
18,604,068 s	**+179,277 s**	**-391,686 s**	**18,391,659 s**

Date	Description	Amount (s)	Balance (s)
17 Feb	Transfer to own account: L4 Habitat	-317,607	18,286,461
	This fee sat at the Hall E counter for 31 days because the officer who takes sundries had been reassigned to the second floor and had taken the stamp with them. The stamp has since come back down, and the fee was stamped on the 17th. Ref. CIBT-3010-05E9-3		
21 Feb	Transfer to joint account	-74,079	18,212,382
	The joint transfer is rounded to the whole second in the holders' favour on the way in and against them on the way out, so the account is always a second richer when the sum arrives than when it leaves. Both holders have asked that the second be kept. Ref. CIBT-3010-ECED-9		
26 Feb	Payroll credit: Kepler Ring Hydroponics	+123,465	18,335,847
	An advance of 29 days' wages from Kepler Ring Hydroponics was granted at the counter on the strength of the contract. The Bank has seen the first page of the contract and the signature at the foot of the last; the middle has been taken on trust. Ref. CIBT-3010-4C2A-0		
28 Feb	Interest at 3.60% APY	+55,812	18,391,659
	The Ceres branch counts its interest in lengths of the asteroid's own day, and converts the total to ours on the morning the day ends. The conversion is printed in small type beside the sum, and you have read it every month without remark. Ref. CIBT-3010-496D-7

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
