Unit 10, Pallas Ring 10

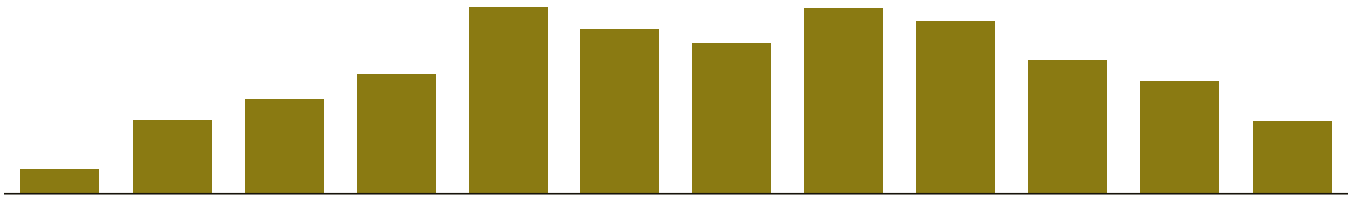

Account 8564-2001-5708
Period 1–31 May 3010
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
17,418,925 s	**+175,721 s**	**-818,657 s**	**16,775,989 s**

Date	Description	Amount (s)	Balance (s)
09 May	Transfer to joint account	-74,079	17,344,846
	Interest on the joint account at Mars Station is credited at the local hour. The holder there finds it easier to follow than the Standard one, and has asked that the Standard figure be kept for reference. Ref. CIBT-3010-DFE5-6		
11 May	Payroll credit: Kepler Ring Hydroponics	+123,465	17,468,311
	No slippage was charged on the Kepler Ring Hydroponics remittance, because the sending desk and Hall E draw on one clock. A crossing that never happens cannot be billed, and nobody has tried. Ref. CIBT-3010-1862-5		
25 May	ATM withdrawal: Mars Station	-172,800	17,295,511
	Your withdrawal at Mars Station is the last thing the machine does before the custodian goes off shift, and he waits for it with his coat on. He says it is the only transaction on the concourse he is paid to watch. Ref. CIBT-3010-4F11-6		
26 May	Slippage fee (Mars Station, 2 transfers)	-1,800	17,293,711
	The Kepler Ring Hydroponics office at Mars Station sends its transfers on the local day, so every crossing into Hall E carries a fee for the difference. The fee is 1,800 s this month, the same as last, and the office has accepted it in writing. Ref. CIBT-3010-3EC2-3		
30 May	Transfer to own account: Mars Station	-569,978	16,723,733
	This fee sat at the Hall E counter for 30 days because the officer who takes sundries had been reassigned to the second floor and had taken the stamp with them. The stamp has since come back down, and the fee was stamped on the 30th. Ref. CIBT-3010-5CFF-6		
31 May	Interest at 3.60% APY	+52,256	16,775,989
	The Tycho window pays interest by the lunar day, which runs slower than ours, so each statement here is a little older than the same month at Head Office. The Tycho officers say that a balance this patient is worth the wait, and they have seen a good many. Ref. CIBT-3010-0721-8		

Closing balance, month by month

June 3009 May 3010

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
