Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
13,181,022 s	**+1,019,664 s**	**-506,079 s**	**13,694,607 s**

Date	Description	Amount (s)	Balance (s)
04 May	ATM withdrawal: New Orleans Sector	-172,800	13,008,222
	The concourse staff call the machine at New Orleans Sector by a name the Bank does not record. The Teller asks that you be told, in confidence, that the name is affectionate. Ref. CIBT-3017-BDEC-3		
09 May	Deposit: Hall E	+980,121	13,988,343
	Kepler Ring Hydroponics paid this deposit in days and asked that it be shown in ours, so the figure on your statement is the one Kepler Ring Hydroponics would see on its own books, converted to the second. Ref. CIBT-3017-27CC-2		
17 May	ATM withdrawal: New Orleans Sector	-259,200	13,729,143
	Asked whether the machine was reliable, the Teller said it was reliable in the sense that it was always there, and that she had never known it to be anywhere else. Ref. CIBT-3017-D6DC-0		
28 May	Transfer to joint account	-74,079	13,655,064
	Bodhi Lindqvist reads the joint figure in one voice and Ines Umberfield repeats it in another, and the two readings are entered side by side on the slip. The officer says the account keeps two registers and the Bank has only ever needed one. Ref. CIBT-3017-EEE4-2		
31 May	Interest at 3.60% APY	+39,543	13,694,607
	The interest for 28 days was held up because the Rate Committee's table was printed in days and had to be turned back into seconds by a clerk who was not sure which way the conversion ran. It ran the right way once it was checked, and the clerk has requested a column in the table to say which way. Ref. CIBT-3017-B8ED-2

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
