Period 1–31 May 3023
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
9,322,806 s	**+1,471,376 s**	**-506,079 s**	**10,288,103 s**

Date	Description	Amount (s)	Balance (s)
16 May	Payroll credit: Kepler Ring Hydroponics	+123,465	9,446,271
	Your wages from Kepler Ring Hydroponics arrive every second Friday, and the Bank has learned to expect them on the day rather than after it. The fortnight has been counted since 3019 and has never once been missed. Ref. CIBT-3023-91DF-4		
17 May	ATM withdrawal: Singapore Sector	-259,200	9,187,071
	The concourse staff call the machine at Singapore Sector by a name the Bank does not record. The Teller asks that you be told, in confidence, that the name is affectionate. Ref. CIBT-3023-9049-4		
20 May	ATM withdrawal: Singapore Sector	-172,800	9,014,271
	The machine's secondary keypad was used for this request rather than the primary one. Both keypads are on the same circuit. The log records the request twice and the dispensing once, which is correct, and which the auditors have said they expected. Ref. CIBT-3023-C65D-2		
21 May	Deposit: Hall E	+1,319,943	10,334,214
	A deposit on the 21st was entered as a withdrawal in error and the sign has been corrected. The balance on this statement is the one it would have been had the sign been right first time. Ref. CIBT-3023-ED1F-6		
29 May	Transfer to joint account	-74,079	10,260,135
	The payment waited 30 days in the relay's queue at Singapore Sector, behind a transfer from a lighthouse. The Bank does not rank transfers by their senders, but the relay does, and the lighthouse's transfer was sent first, as it always is. Ref. CIBT-3023-2EE1-7		
31 May	Interest at 3.60% APY	+27,968	10,288,103
	Interest credited at the posted rate. Your account qualifies for the long-standing depositor bonus, which is included in this figure. Ref. CIBT-3023-DC66-3		

Closing balance, month by month

Highest 10,288,103 s · lowest 6,584,164 s

June 3022 May 3023

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
