Date	Description	Amount (s)	Balance (s)
09 Jul	ATM withdrawal: Mars Station	-86,400	10,785,559
	You turn your back to the machine while the cash comes out and count it only once you have turned round again. The custodian regards this as sound practice, and has asked the machine to face the other way, politely. Ref. CIBT-3023-9E8F-2		
10 Jul	ATM withdrawal: Mars Station	-86,400	10,699,159
	On the first Standard day of each month the machine at Mars Station pays One Standard day against an instruction given in 3018. It is paid on the same stroke of the concourse clock each time, and the clock has never been asked to hurry. Ref. CIBT-3023-9A4E-3		
20 Jul	Transfer to joint account	-74,079	10,625,080
	Audit note: the joint balance was confirmed against both holders' individual records and against the branch ledger, and the three agree. The auditors ask that the agreement be recorded in the same ink as the figures. Ref. CIBT-3023-8E2F-5		
28 Jul	Deposit: Hall E	+1,026,331	11,651,411
	A customer at the next window asked whether a deposit could be backdated to the day before. The Teller said it could, and asked what date he would like it to have been. He said nothing, and was credited on the day he came in. Ref. CIBT-3023-0870-7		
31 Jul	Interest at 3.60% APY	+32,615	11,684,026
	The statement reached you 28 days late, because the interest had been credited before the period it belonged to had been opened. The Bank has put the dates in order, and the figures shown are the ones it carried. The statement was held with the second officer's initials not yet dry while this was done. Ref. CIBT-3023-BF42-8
