Soren Blackwood
Unit 318, Pallas Ring 10

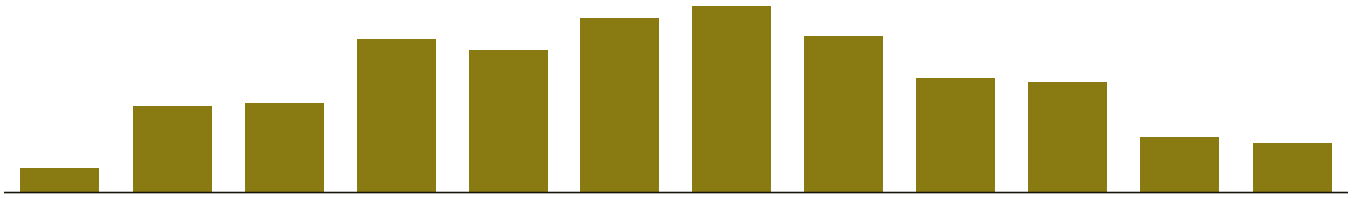

Account 8564-2001-5708
Period 1–31 May 3024
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
11,279,825 s	**+253,337 s**	**-333,279 s**	**11,199,883 s**

Date	Description	Amount (s)	Balance (s)
03 May	ATM withdrawal: Venus	-86,400	11,193,425
	You never take the receipt home. You leave it in the slot, the custodian collects it each morning and files it against your account, where there are now 2 of them, unread by you and in order. Ref. CIBT-3024-34F1-3		
07 May	Deposit: Hall E	+96,033	11,289,458
	You bring your savings in coin each month and count them out in piles of ten, which the window has come to regard as the true statement of your savings. The statement has never once disagreed with the piles. Ref. CIBT-3024-EFDB-4		
08 May	Payroll credit: Kepler Ring Hydroponics	+123,465	11,412,923
	The remittance slips from Kepler Ring Hydroponics are signed by a different clerk each month. Each clerk initials the sum the one before wrote, and the Bank reads the initials as a chain of agreement that goes back to 3023. Ref. CIBT-3024-D07C-9		
16 May	Transfer to joint account	-74,079	11,338,844
	"The joint account is the only one in the building that is never overdrawn," the Teller says, "because neither holder will allow the other to notice." She says this with approval, and asks that it be recorded as her view. Ref. CIBT-3024-077D-7		
23 May	ATM withdrawal: Venus	-172,800	11,166,044
	Each request you make ends in a few seconds, which the machine notes in its log as the only consistent thing about any of its customers. Ref. CIBT-3024-8373-4		
31 May	Interest at 3.60% APY	+33,839	11,199,883
	The Teller reads the interest out before the balance, the balance before the interest, and then both together, which the Teller says is the order the account was opened in. The register does not say so, but nobody has checked. Ref. CIBT-3024-2D43-2		

Closing balance, month by month

June 3023 May 3024

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
