STATEMENT OF ACCOUNT

Standard Time Deposit

Soren Blackwood
Unit 263, Pallas Ring 10

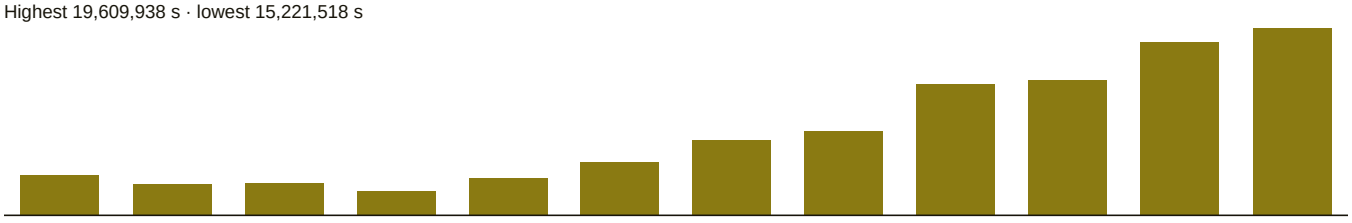

Account 8564-2001-5708
Period 1–31 July 3029
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
19,255,822 s	**+606,395 s**	**-252,279 s**	**19,609,938 s**

Date	Description	Amount (s)	Balance (s)
05 Jul	Deposit: Hall E	+425,163	19,680,985
	A correction to the 5th line: the deposit was posted in days and again in seconds, and the two postings were read as two deposits. One has been reversed, and the sum shown is the one counted at the window. Ref. CIBT-3029-F9CA-5		
13 Jul	ATM withdrawal: Tallinn Sector	-172,800	19,508,185
	You draw 2 Standard days and then send a note to the branch asking whether the sum was correct. The file says the answer is always yes, that you know this, and that you ask anyway. Ref. CIBT-3029-4F13-8		
16 Jul	Payroll credit: Kepler Ring Hydroponics	+123,465	19,631,650
	Last statement's pay line gave the employer's name where the remitter reference should have been. The reference has been restored. The payment itself was correct, and nothing has moved. Ref. CIBT-3029-FA99-5		
24 Jul	Transfer to joint account	-74,079	19,557,571
	Your share of the joint transfer comes from Kepler Ring Hydroponics, and Ines Umberfield's from another office of the same firm. The Bank asked both holders which office they would like the transfer named after, and both gave the same answer. Ref. CIBT-3029-4484-8		
26 Jul	Slippage fee (Tallinn Sector, 6 transfers)	-5,400	19,552,171
	Kepler Ring Hydroponics's payroll office worked out your share of the slippage to the second and sent its workings to the Bank. The Bank compared them with its own and found the firm one second more generous. It has accepted the firm's figure, since it is the first generous one the Bank has been sent this year. Ref. CIBT-3029-A3A6-1		
31 Jul	Interest at 3.60% APY	+57,767	19,609,938
	Interest is calculated to the tenth of a second and paid to the whole second. The tenths are gathered each year into a line of their own, which the officer calls the depositor's fortune, though nobody has yet found a way to spend it. Ref. CIBT-3029-7AB1-1		

Closing balance, month by month

Highest 19,609,938 s · lowest 15,221,518 s

August 3028 July 3029

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
