Wren Szabo
Unit 47, Pallas Ring 10

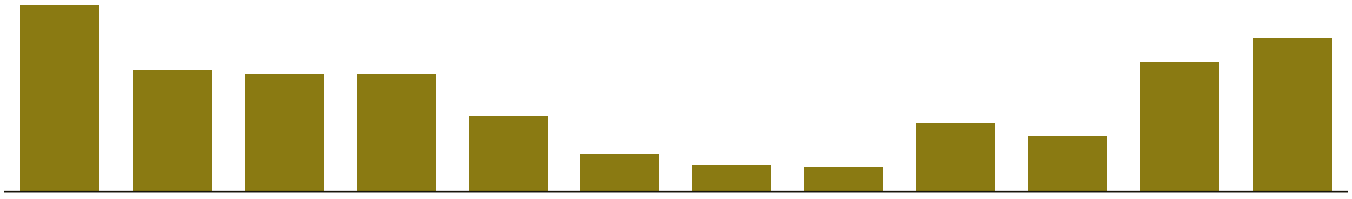

Account 8564-2139-8921
Period 1–31 January 3000
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
568,521,134 s	**+11,862,134 s**	**-206,026 s**	**580,177,242 s**

Date	Description	Amount (s)	Balance (s)
07 Jan	Temporal Health Plan	-33,226	568,487,908
	Your cover renews on the first working day of the year, and the premium is set at the start of the month before. The plan asked whether you would like the two to match; you said you preferred them apart. Ref. CIBT-3000-7158-8		
14 Jan	Mech Veterans' Time Pension	+1,380,333	569,868,241
	Your pension was held at the Pensions Office for 29 days while its papers were checked against the Authority's list of divisions, which had been redrawn. The divisions are as they were, and the payment has been released with the wait added as interest. Ref. CIBT-3000-1A09-4		
18 Jan	Deposit: Hall E	+8,397,224	578,265,465
	You make every deposit in the same proportions, one part to the current account and one part to each of your two savings accounts, and the Bank has learned to split the envelope before the Teller reaches it. The Teller says it is the tidiest sum she has seen since 2998. Ref. CIBT-3000-E08A-3		
26 Jan	ATM withdrawal: Ganymede	-172,800	578,092,665
	A sum of 2 Standard days is drawn each month at Ganymede on the same card and paid out in the same whole cycles. The Bank has been able to predict the figure to the second for 29 years. Ref. CIBT-3000-36E1-8		
31 Jan	Interest at 4.40% APY	+2,084,577	580,177,242
	The statement shows interest accrued to the close of the Pallas Ring 10 day. The balance on your card does not include it, since the card reads the balance at the instant of a withdrawal, and an instant does not contain a day's interest. The two agree within 61 seconds, which the card calls a tolerance. Ref. CIBT-3000-66B0-7		

Closing balance, month by month

Highest 596,736,795 s · lowest 516,421,674 s

February 2999 January 3000

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
