Date	Description	Amount (s)	Balance (s)
07 Jul	Deposit: Hall E	+33,696,186	720,650,833
	You have made a deposit at Hall E on the 7th of every month since 2996, and the officers now begin entering it before you reach the window. They call this a courtesy, and they mean the first. Ref. CIBT-3000-FD41-4		
09 Jul	Slippage fee (Mars Station, 6 transfers)	-1,800	720,649,033
	The clock in the window at Hall E runs 6 seconds behind the relay's, which you have timed every month since 2996 and reported in writing. The Bank has charged your fee on the window's figure, and the window clock has been set to agree with the Bank, which is the only instance in the file of a clock taking advice. Ref. CIBT-3000-1F52-7		
19 Jul	Temporal Health Plan	-26,959	720,622,074
	Reimbursement for 10 sessions at Mars Station was first reckoned at the Head Office rate. The local rate is printed on the back of the claim form, and the plan has reissued the figure at that rate, which is 0.968 higher. Ref. CIBT-3000-7118-4		
30 Jul	Mech Veterans' Time Pension	+1,524,400	722,146,474
	The schedule for 2999 placed you one service rank too low, which lowered the pension by 0.30 seconds. The Office has reprinted it with the rank restored and added the difference below, along with a sentence about the rank that the veteran has asked not to see again. Ref. CIBT-3000-A712-4		
31 Jul	Interest at 4.40% APY	+2,518,833	724,665,307
	Interest is credited at the close of the Pallas Ring 10 day, and the local office at Mars Station confirms the figure by relay in sols. The statement therefore carries two figures, and only one of them is yours. Ref. CIBT-3000-4039-3

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
