Date	Description	Amount (s)	Balance (s)
13 Jun	ATM withdrawal: Kepler Ring	-259,200	37,596,486
	The Lagrange Four Commissary's courier collects the cash for your account on the 13th and signs for it on a clipboard the Bank does not hold. The signature on file is in a different hand each time, and the sum has agreed each time. Ref. CIBT-3003-3729-1		
19 Jun	ATM withdrawal: Kepler Ring	-259,200	37,337,286
	The Mars Station machine recorded this withdrawal on the local sol and the branch on the Standard day. The two were reconciled by hand, and the cash was paid once, in full turns. Ref. CIBT-3003-C708-4		
19 Jun	Temporal Health Plan	-15,044	37,322,242
	You read the plan's schedule upside down. The Teller noticed, and the plan has now printed the schedule that way on the reverse of your statements, in case the upside-down reading is the correct one. Ref. CIBT-3003-40EB-3		
22 Jun	Deposit: Hall E	+2,966,217	40,288,459
	You seal every envelope with the same brass seal, and the officers have stopped checking it against the file. The seal is now the one thing on the envelope that anyone at Hall E can identify without looking. Ref. CIBT-3003-F345-4		
28 Jun	Payroll credit: the Lagrange Four Commissary	+329,097	40,617,556
	The Lagrange Four Commissary writes its remittance advice in pencil on a card that has been used for 28 years, and the figure on it is the figure we posted. Nobody at the office has said why the card is still in service, and the Bank has not asked. Ref. CIBT-3003-BF03-3		
30 Jun	Interest at 3.70% APY	+116,721	40,734,277
	The fraction of a second left over from the period's interest is not shown. The Bank keeps such fractions for the depositor as a matter of custom, and this one has been kept, with interest. Ref. CIBT-3003-F752-6

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
