Wim Fairbrass
Unit 204, Pallas Ring 10

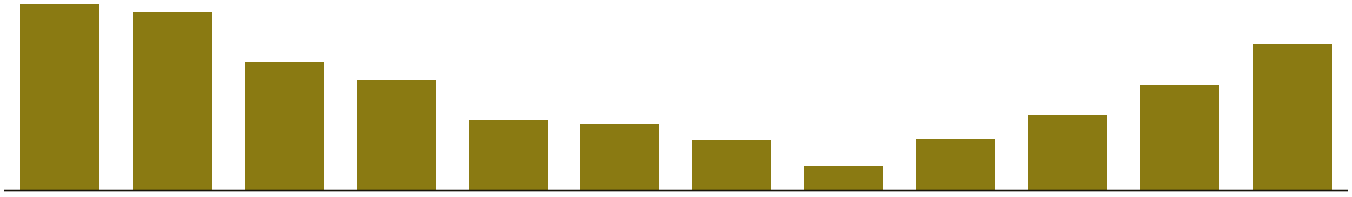

Account 8564-3113-8564
Period 1–30 November 3000
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
568,551,306 s	**+47,001,034 s**	**-2,802,320 s**	**612,750,020 s**

Date	Description	Amount (s)	Balance (s)
10 Nov	Transfer to joint account	-2,370,320	566,180,986
	Note for the auditors: this joint account has been operated for 4 years on a standing order whose authority was signed once, on the day it opened. The auditors record that nobody has since asked for it to be signed again. Ref. CIBT-3000-3F92-3		
11 Nov	Payroll credit: the Authority Records Office	+3,950,533	570,131,519
	Asked whether the Authority Records Office credit was the usual sum, the Teller said it was the usual sum for a depositor who had never once asked for anything extra. Which of the two was unusual has been left on the file. Ref. CIBT-3000-8B68-7		
11 Nov	ATM withdrawal: São Paulo Sector	-259,200	569,872,319
	After the machine lost power in a storm, the withdrawal waited 29 days for the relay to reconcile what the machine remembered. It remembered the sum correctly once it was back on, and the relay agreed with it. Ref. CIBT-3000-88D2-5		
12 Nov	ATM withdrawal: São Paulo Sector	-172,800	569,699,519
	Note for the auditors: the withdrawal of 2 Standard days at São Paulo Sector appears on the machine's log a few seconds past the hour and on the branch ledger at the hour. Both are correct. The machine keeps its own time, and the branch keeps the other. Ref. CIBT-3000-4FE7-1		
20 Nov	Deposit: Hall E	+41,060,572	610,760,091
	You make a deposit at the Hall E window on the same afternoon every week, usually before the bell, with the slip already filled in. The officers no longer check it and simply initial the foot. Ref. CIBT-3000-9ADA-0		
30 Nov	Interest at 4.20% APY	+1,989,929	612,750,020
	The Teller weighed the interest slip on the branch's paper scale, which is not calibrated for money, and reports that the slip is heavier than the sum it carries. She considers this a fair division of the work. Ref. CIBT-3000-74D5-3		

Closing balance, month by month

Highest 656,516,563 s · lowest 480,347,754 s

December 2999 November 3000

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
