Date	Description	Amount (s)	Balance (s)
12 May	Slippage fee (Tallinn Sector, 2 transfers)	-1,200	668,265,347
	When the crossings to Tallinn Sector come to an odd number of seconds, the odd second is paid by whichever transfer was sent last, so the last transfer of the day pays for the day. You have sent it last every month since 3009 and have never once remarked on the arithmetic. Ref. CIBT-3011-7821-7		
22 May	Transfer to own account: Tallinn Sector	-2,677,709	665,587,638
	The Authority Records Office has asked that its transfers to this account be made in days rather than seconds, as its wages have always been paid. The conversion was made at the posted rate, and its finance office has written to say the figure is correct to the second. Ref. CIBT-3011-DD56-0		
26 May	Transfer to joint account	-2,370,320	663,217,318
	Each morning, before the window opens, you and Quill Prendergast stand a little apart on the bench, each reading the joint figure from the same card, and then sit down together as the counter opens. Ref. CIBT-3011-2380-2		
31 May	Interest at 4.20% APY	+2,338,932	665,556,250
	The officer writes to say that the interest on this account is correct to the second, a sentence she has written before and will write again. The letter carries no charge, because it contains nothing you did not already know. Ref. CIBT-3011-C714-0

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
