Opening balance	Credits	Debits	Closing balance
193,644,193 s	**+1,591,309 s**	**-11,336,578 s**	**183,898,924 s**

Date	Description	Amount (s)	Balance (s)
04 Jul	Transfer to own account: Venus	-10,642,678	183,001,515
	A sundry was posted twice, once in days and once in seconds, because the Venus desk sent its slip in both forms and the Bank read both. The duplicate has been removed. The desk has been asked to send one form, and has replied that the second is how it knows the first is its own. Ref. CIBT-2995-A7D2-5		
08 Jul	Payroll credit: Belt Ore Consolidated	+961,966	183,963,481
	The wage reached the account before the crew had come up, the firm having paid its crews on the surface as a courtesy to the day. The crew came back down that afternoon and asked whether the sum could be left where it was, and the Bank said that it could. Ref. CIBT-2995-D8AF-6		
17 Jul	ATM withdrawal: Venus	-259,200	183,704,281
	You have never drawn the same sum twice from the machine at Venus, though you draw from it every month. The officers have a theory about this and have agreed not to test it. Ref. CIBT-2995-522C-7		
20 Jul	ATM withdrawal: Venus	-172,800	183,531,481
	Withdrawn from a joint account on one holder's instruction, against Belt Ore Consolidated's advance of next month's wages. The advance appears on its own line with its own fee, and the employer has agreed to bear the fee. Ref. CIBT-2995-0AE8-5		
20 Jul	Memory Vault: box 15-561, quarter	-259,200	183,272,281
	The contents of box 15-561 were checked again over 30 days after a claim was lodged. That is the Vault's procedure, and it is no reflection on the memory in question. Ref. CIBT-2995-ACAE-3		
27 Jul	Slippage fee (Venus, 3 transfers)	-2,700	183,269,581
	A crossing that begins at the Venus relay is charged on the day it starts on Mars, which is not always the day it ends on Earth. The Teller has explained this twice, and the Bank regards it as settled. Ref. CIBT-2995-6F1D-8		
31 Jul	Interest at 3.90% APY	+629,343	183,898,924
	The auditors checked the accrual on this account against the rate table for 2993. They found the table correct and the account correct on the first reckoning, and asked for the table to be reprinted with its errors left in, for the record. Ref. CIBT-2995-3FBC-1

August 2994 July 2995

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
