| Date | Description | Amount (s) | Balance (s) |
|---|---|---|---|
| 03 Jan | ATM withdrawal: Bronx Sector | -86,400 | 129,828,626 |
| | For 46 minutes the machine at Bronx Sector kept your card while it decided whether the previous customer had left it in the slot. The previous customer had, with some ceremony, and the card was released with the same ceremony. Ref. CIBT-3000-B02D-7 | | |
| 07 Jan | Slippage fee (Bronx Sector, 9 transfers) | -8,100 | 129,820,526 |
| | The statement was printed before the 7th crossing was struck from the relay's books. The fee for it has been removed, and the transfer, which was never made, has not been charged. The statement came back with a shell from a beach nobody has been able to name, which the Bank has filed beside it. Ref. CIBT-3000-8A1A-0 | | |
| 07 Jan | Deposit: Hall E | +13,843,250 | 143,663,776 |
| | You stand the envelope on its end at the window, and the officers have come to read it that way, which saves a turn at the counter. The saving has added up, the officers note, every Tuesday since 2996. Ref. CIBT-3000-F749-9 | | |
| 09 Jan | Payroll credit: Belt Ore Consolidated | +961,966 | 144,625,742 |
| | The payroll file arrived with its header in the wrong year, which the system read as a request to wait. It sat at the end of the counter, where the light is poor until it was re-keyed by hand, and the credit was posted 28 days later, with the wait recorded against the employer and not against you. Ref. CIBT-3000-F609-4 | | |
| 14 Jan | ATM withdrawal: Bronx Sector | -86,400 | 144,539,342 |
| | On Mars the cash-time machine asks which day you mean before it will pay, since the sol and the Standard day seldom end together. Your One Standard day was paid on the second question, which the machine prefers. Ref. CIBT-3000-F3A8-7 | | |
| 29 Jan | Memory Vault: box 15-561, quarter | -259,200 | 144,280,142 |
| | For the auditors: the rental on box 15-561 for the quarter agrees with the Vault's inventory and with the Head Office ledger. A 29-day difference in the transfer record was a sub-level clock that has since been corrected by hand. Ref. CIBT-3000-8041-0 | | |
| 31 Jan | Interest at 3.90% APY | +422,223 | 144,702,365 |
| | Interest for the last 30 days was posted late, because the period's rate was not confirmed until the Authority published its reference second. The interest accrued in the meantime, as interest does. Ref. CIBT-3000-CF60-4 | | |

*Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.*
