Isolde Pemberton
Unit 260, Pallas Ring 10

Account 8564-3955-7708
Period 1–31 January 3000
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
332,493,691 s	**+170,107,784 s**	**-260,100 s**	**502,341,375 s**

Date	Description	Amount (s)	Balance (s)
03 Jan	Slippage fee (Bronx Sector, 3 transfers)	-900	332,492,791
	The crossings were delayed at the relay while one of its clocks was moved from one bay to another, a job that takes 28 days and cannot be done faster. The slippage that built up was 900 seconds, and it is charged in full. Ref. CIBT-3000-0159-2		
14 Jan	Memory Vault: box 76-105, quarter	-259,200	332,233,591
	The Teller remarks that box 76-105 has the look of a thing put down carefully, and asks the holder whether that is how it was meant to look. Ref. CIBT-3000-72C5-0		
15 Jan	Deposit: Hall E	+158,967,871	491,201,462
	Notes totalling 158,967,871 were checked at the Hall E window. The Teller observed, to nobody in particular, that they had been folded by someone with a clear view of their future. Ref. CIBT-3000-E796-0		
21 Jan	Payroll credit: the Ceres Ring Assay Office	+10,003,893	501,205,355
	The payroll file arrived with its header in the wrong year, which the system read as a request to wait. It sat on the cart that runs between the two counters until it was re-keyed by hand, and the credit was posted 28 days later, with the wait recorded against the employer and not against you. Ref. CIBT-3000-C2C1-8		
31 Jan	Interest at 4.10% APY	+1,136,020	502,341,375
	For one month, at the request of the Ceres Ring Assay Office, your interest was paid into the firm's own account so that its treasury could see what a depositor's second looks like in practice. The treasury returned it on the 31st with a note of thanks and no comment on the figure. Ref. CIBT-3000-56A7-2		

Closing balance, month by month

Highest 502,341,375 s · lowest 144,657,720 s

November 2999 January 3000

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
