Standard Time Deposit

Isolde Pemberton
Unit 396, Pallas Ring 10

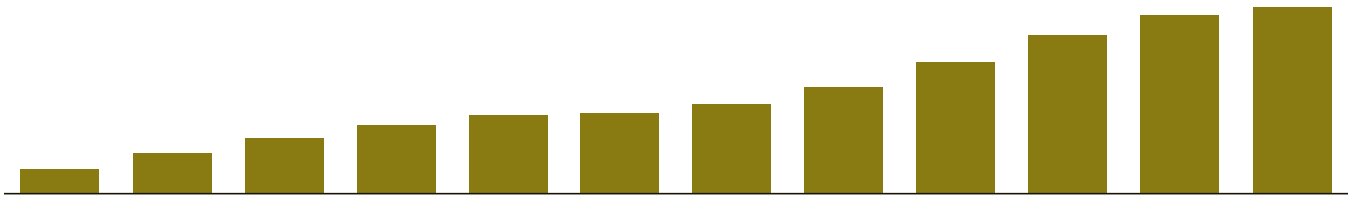

Account 8564-3955-7708
Period 1–31 October 3000
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
1,916,175,168 s	**+95,044,752 s**	**-345,600 s**	**2,010,874,320 s**

Date	Description	Amount (s)	Balance (s)
15 Oct	Deposit: Hall E	+78,493,928	1,994,669,096
	Kaito Galloway says the envelope has been opened more often than the Bank's own books, and has come out in good order each time, which the Bank does not dispute. Ref. CIBT-3000-86D8-9		
17 Oct	ATM withdrawal: Mars Station	-86,400	1,994,582,696
	On Mars Station the local day begins in the middle of the night, so the withdrawal is dated the day before the one you made it. The machine knows this and does not mind. The statement does too, and is written accordingly. Ref. CIBT-3000-E6C2-5		
18 Oct	Memory Vault: box 76-105, quarter	-259,200	1,994,323,496
	A custodian at Mars Station asked whether box 76-105 could be moved to a drier sub-level. The box has never been damp, and the sub-level has been dry since the box was put there. The custodian says the box is considered a nervous one. Ref. CIBT-3000-385A-0		
30 Oct	Payroll credit: the Ceres Ring Assay Office	+10,003,893	2,004,327,389
	This month's wage from the Ceres Ring Assay Office waited 31 days at Mars Station, because the local office had a clerk on long leave and no one else held the key to the wage drawer. The drawer was opened on the 30th, and the wage was counted out in full. Ref. CIBT-3000-F79C-4		
31 Oct	Interest at 4.10% APY	+6,546,931	2,010,874,320
	Interest on the Mars Station balance was paid in 0.983 sols and the rest in our seconds. The posting day is the Head Office's, and the officer there reminds depositors that the second is a little longer on that world than they might expect. Ref. CIBT-3000-2B59-1		

Closing balance, month by month

Highest 2,010,874,320 s · lowest 144,657,720 s

November 2999 October 3000

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
