Date	Description	Amount (s)	Balance (s)
04 Aug	Transfer to own account: The Belt	-2,265,673	14,552,892
	Lagrange posts its sundries at the close of its own shift, which is not the close of the day. This one was posted at the start of a shift the Head Office does not keep, and no one has yet asked for it back. Ref. CIBT-2995-1DA2-9		
08 Aug	ATM withdrawal: The Belt	-86,400	14,466,492
	The posting was held 29 days because the receipt paper at The Belt had to be counted. The count then had to be declared correct by someone who had not been present for it. Ref. CIBT-2995-6672-0		
11 Aug	Transfer to joint account	-122,500	14,343,992
	The Belt pays its share of the joint account in a unit the local office calls the reckoning, and does so without irony. The Bank converts it at the posted rate and sends the reckoning on to both holders, who prefer it to the word "share" and say so on every slip. Ref. CIBT-2995-4F84-7		
12 Aug	Payroll credit: Cloudport Aerostat Lines	+204,167	14,548,159
	The employer's office sent the wrong month's pay a month early, with a request that the sum be held until the right one arrived. The Bank held it, and the right one has now been posted under its correct date. Ref. CIBT-2995-DEEF-3		
17 Aug	ATM withdrawal: The Belt	-259,200	14,288,959
	A draw landing exactly on half of a shift is paid to the even second, the machine's rule, which the Bank has adopted from the old ledgers and has not been asked to defend. Ref. CIBT-2995-A201-9		
31 Aug	Interest at 3.40% APY	+47,652	14,336,611
	The Teller reads the figure once, then again, and says the second reading was for her own benefit and not yours. Ref. CIBT-2995-3C4B-3

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
