Period 1–31 August 3003
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
162,770,921 s	**+5,291,574 s**	**-383,576 s**	**167,678,919 s**

Date	Description	Amount (s)	Balance (s)
01 Aug	Deposit: Hall E	+3,517,554	166,288,475
	The notes had been kept inside a recipe book, at the bread for most of the quarter, and the Teller can smell it. She counts them anyway and writes "aired" in the margin, which is the nearest the window has ever come to an opinion on a holding. Ref. CIBT-3003-86C2-5		
13 Aug	ATM withdrawal: Kepler Ring	-86,400	166,202,075
	The withdrawal at Kepler Ring was held beside the relay room door, where nobody sits, and the relay then confirmed a balance it had already confirmed once. The second confirmation is the more thorough of the two, and the sum is as you asked for. Ref. CIBT-3003-978A-1		
13 Aug	Temporal Health Plan	-37,376	166,164,699
	Your eye test was paid 31 days after it was billed, while the optician's own record of the appointment was checked against the plan's. The claim has been dated to the day you attended, not the day it arrived. Ref. CIBT-3003-6AC7-9		
15 Aug	ATM withdrawal: Kepler Ring	-259,200	165,905,499
	Waiting time at Kepler Ring depends on the customer. The machine has been taught to wait while the receipt is read, and it waits longer for slow readers, which the branch regards as the machine's most civil feature. Ref. CIBT-3003-2B04-4		
26 Aug	Payroll credit: Ganymede Heights Infirmary	+1,122,937	167,028,436
	The Ganymede Heights Infirmary office at Kepler Ring converts its wages from turns at the posted rate. It keeps the local day of its own dock, so the pay period runs a shade longer than yours; no adjustment is made for this. Ref. CIBT-3003-4C77-7		
29 Aug	Slippage fee (Kepler Ring, 1 transfers)	-600	167,027,836
	A slippage fee is taken each quarter on the transfer to Kepler Ring, because the two clocks drift apart at the same rate and the fee closes the gap before the next audit. The arrangement has run since 3002 without a single adjustment. Ref. CIBT-3003-39BC-9		
31 Aug	Interest at 4.80% APY	+651,083	167,678,919
	The Kepler Ring branch credits interest by its own clock, which runs 0.991 slower than the Head Office's. The Bank has paid the difference rather than keep it, a practice the branch calls customary and the Audit Committee calls unusual. Ref. CIBT-3003-75BC-9		

Closing balance, month by month

Highest 196,610,920 s · lowest 151,630,651 s

September 3002 — August 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
