Standard Time Deposit

Greta Castellane
Unit 355, Pallas Ring 10

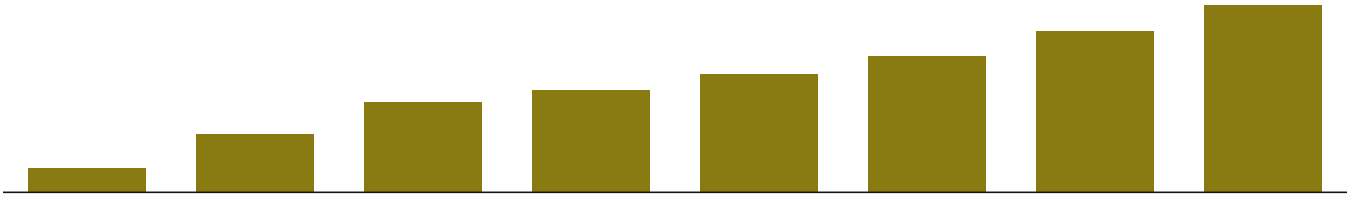

Account 8564-4264-9708
Period 1–30 June 3029
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
6,219,081 s	**+1,432,241 s**	**-557,746 s**	**7,093,576 s**

Date	Description	Amount (s)	Balance (s)
02 Jun	Event II restoration adjustment	-2,198	6,216,883
	Event II restoration adjustment. Your account is in restoration group 35; groups are restored in the order the Task Force sets, and earlier groups may be adjusted again. Ref. CIBT-3029-B53F-6		
07 Jun	Deposit: Hall E	+1,215,579	7,432,462
	Faro Ellsworth-Grisolm says the envelope has been opened more often than the Bank's own books, and has come out in good order each time, which the Bank does not dispute. Ref. CIBT-3029-D634-1		
09 Jun	ATM withdrawal: Titan	-259,200	7,173,262
	3 Standard days withdrawn at Titan, paid 28 Standard days after the request, while the machine waited for the relay to confirm that the local clock agreed with the branch's. It did, on the second attempt, and the cash was given at once. Ref. CIBT-3029-A7F0-4		
10 Jun	Slippage fee (Titan, 7 transfers)	-6,300	7,166,962
	A cable carrying the Titan signal was cut by a utility crew on the 10th. The transfers were held until it was spliced. The crew has been thanked for the splice, which was done neatly enough to be missed. Ref. CIBT-3029-33DC-3		
13 Jun	ATM withdrawal: Titan	-172,800	6,994,162
	The sum shows 0.982 of a cycle less on this statement than it was taken for, because the machine rounds to the nearest whole cycle and the Bank rounds the receipt down. Both figures are shown, and neither is wrong. Ref. CIBT-3029-AACB-9		
14 Jun	Transfer to joint account	-117,248	6,876,914
	Your half of the joint transfer comes from the Lunar Freight Co-operative on the 14th, and Bex Bellweather-Jaramillo's from a firm that has never heard of you; both holders regard this as a sensible division of the work. Ref. CIBT-3029-9A0B-2		
18 Jun	Payroll credit: the Lunar Freight Co-operative	+195,414	7,072,328
	The rule rounds the Lunar Freight Co-operative's pay to the nearest 41-second block rather than the whole second, so the credit of 195,414 came out 41 seconds short of the contract. The contract has been read again. It says "about", and the Bank accepts that. Ref. CIBT-3029-8503-4		
30 Jun	Interest at 4.10% APY	+21,248	7,093,576
	The rate was applied to the balance and the product rounded down, always and never up. A second owed is a second kept, and this statement was drawn on that view. Ref. CIBT-3029-6A17-9		

Closing balance, month by month

Highest 7,093,576 s · lowest 1,419,229 s

November 3028 June 3029

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
