Date	Description	Amount (s)	Balance (s)
16 May	Payroll credit: the Authority Records Office	+1,468,806	155,613,077
	The Authority Records Office wages were rounded down to the whole sol, and the 0.959 left over was given to the depot's gatekeeper as a tip. The gatekeeper has asked the Bank to say thank you, and the Bank has done so here. Ref. CIBT-3003-3627-8		
16 May	Transfer to own account: Mars Station	-1,487,098	154,125,979
	Charged by Mars Station, which bills for the paper a transfer is written on, counted in sols, that being the unit paper is counted in on that world. The Bank has converted the charge into seconds and returned the remainder to the office with a covering note. Ref. CIBT-3003-6758-6		
19 May	ATM withdrawal: Mars Station	-259,200	153,866,779
	Where a withdrawal falls between two whole sols the machine pays the lower and reports the higher. The Bank has posted the lower, which is the sum you received, and keeps the higher on the machine's own roll. Ref. CIBT-3003-3F0A-2		
30 May	Temporal Health Plan	-14,557	153,852,222
	You pay the premium on the first morning the plan's office opens, every month, so you are always the first line in the day's ledger. The plan has offered to move you down the list for variety, and you have declined. Ref. CIBT-3003-4B09-1		
31 May	Interest at 4.80% APY	+616,577	154,468,799
	You have never asked for the interest to be shown in another unit. The statement gives it in Standard Galactic Seconds, as it always has, and you have never objected to the unit. Ref. CIBT-3003-C362-0

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
