Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
118,532,965 s	**+20,479,920 s**	**-348,600 s**	**138,664,285 s**

Date	Description	Amount (s)	Balance (s)
08 Jun	Slippage fee (Callisto, 5 transfers)	-3,000	118,529,965
	Audit trail: the 5 crossings on this line reconcile to the relay's log, the relay's log reconciles to the Head Office's, and the Head Office's comes to a figure one second greater than this statement. The second has been entered as a rounding, and the auditors have asked for no further account of it. Ref. CIBT-3010-AC8B-0		
13 Jun	Payroll credit: Harbourfront Shipping	+1,443,371	119,973,336
	The Harbourfront Shipping transfer was split between your two accounts at the counter, on a clean slip, and the officer said the arithmetic was the only part of it that had been difficult. Both halves are correct. Ref. CIBT-3010-8801-5		
14 Jun	ATM withdrawal: Callisto	-86,400	119,886,936
	Cash on Callisto is subject to that world's rounding, which the Bank does not dispute. The rounding was in your favour by 9 hundredths of a cycle, and the Bank has kept the hundredths for itself. Ref. CIBT-3010-8116-4		
21 Jun	ATM withdrawal: Callisto	-259,200	119,627,736
	After the machine lost power in a storm, the withdrawal waited 30 days for the relay to reconcile what the machine remembered. It remembered the sum correctly once it was back on, and the relay agreed with it. Ref. CIBT-3010-272F-1		
21 Jun	Deposit: Hall E	+18,582,173	138,209,909
	You count your envelope before you seal it and write the total on the outside, so the counter can check it against the slip in the time it takes to say the figure. Most holders have never heard of this method. The Bank has adopted it. Ref. CIBT-3010-ADDF-7		
30 Jun	Interest at 4.60% APY	+454,376	138,664,285
	The period closed on the 30th, but the rate was not fixed until the relay at Callisto had finished its night's count. The relay does this slowly and without interruption. Ref. CIBT-3010-ADEC-5

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
