Date	Description	Amount (s)	Balance (s)
02 Aug	ATM withdrawal: Mars Station	-259,200	486,878,666
	The withdrawal at Mars Station was queued for 23 minutes behind a fault in the machine's shutter, which opened on the local hour rather than the branch's. It was paid as the shutter opened. Ref. CIBT-3003-8A57-7		
05 Aug	Payroll credit: Cloudport Aerostat Lines	+3,293,900	490,172,566
	Your pay was credited on the 5th, the day the Bank had closed to balance its own books, so the credit went into a ledger that was not yet open to anyone else. The officer describes it as the cleanest arrival on record. Ref. CIBT-3003-A224-5		
13 Aug	Deposit: Hall E	+17,341,969	507,514,535
	Cloudport Aerostat Lines sent the sum in the name of the depositor's aunt, by mistake, and asked for it back the following week. The office's clerk had crossed out the aunt's name and written yours beside it. The mistake was the office's, and the crossing-out is in the file. Ref. CIBT-3003-A194-1		
18 Aug	Temporal Health Plan	-25,233	507,489,302
	Auditors' query: the premium for 9 months is entered on the plan's books and on the member's, and the two figures differ. The member's figure is correct. The plan's has been corrected, and the difference moved to the suspense heading. Ref. CIBT-3003-2F35-2		
28 Aug	Transfer to joint account	-1,976,340	505,512,962
	The office at Mars Station sends a covering note with each share, written in the local manner, and the Bank files the notes with the statements. They are the only documents in the folder that ask after the weather. Ref. CIBT-3003-C634-2		
31 Aug	Interest at 4.80% APY	+1,948,551	507,461,513
	Interest is worked on the Standard day and posted by the clock at Hall E, which keeps its own, so the interest line and the Standard reckoning are never quite the same width. The figures have been placed side by side so that the difference can be seen without being explained. Ref. CIBT-3003-6A89-0
