Date	Description	Amount (s)	Balance (s)
01 Jan	Transfer to own account: Svalbard	-69,414,635	543,328,949
	The sum was converted at four places and rounded to two at the end, as the rule requires for sums that have crossed a clock boundary. The rounding came to 43 seconds in the Bank's favour, and has been handed back in full, which the rule does not require. Ref. CIBT-3003-9001-0		
06 Jan	Transfer to joint account	-2,606,759	540,722,190
	Each month the Svalbard share is sent in a sealed container that arrives with the seal broken and the sum inside intact. The Bank has recorded this as a customary delivery and does not ask about the seal. Ref. CIBT-3003-12A6-6		
27 Jan	Slippage fee (Svalbard, 4 transfers)	-1,200	540,720,990
	Montréal Sector Transit routes its remittances through a relay that runs a few seconds apart from ours, so each one reaches you early and is charged for the difference. The firm has asked for the fee to be shown on its own line, and it is. Ref. CIBT-3003-DA2E-0		
29 Jan	ATM withdrawal: Svalbard	-172,800	540,548,190
	Withdrawal at the Automated Temporal Machine on the Svalbard concourse. The machine was serviced the following morning; the custodian's report notes nothing unusual about your transaction. Ref. CIBT-3003-4DC7-0		
31 Jan	Interest at 4.90% APY	+2,502,036	543,050,226
	Interest at the Europa branch arrives through the ice-shaft relay in batches, so this month's credit came in three parts on the same day. The statement adds them up for you, and the officers have asked that you do not check the arithmetic by hand, since they already have. Ref. CIBT-3003-80F1-1

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
