Date	Description	Amount (s)	Balance (s)
08 Oct	Deposit: Hall E	+10,528,919	517,859,225
	The window at Mars Station takes deposits on the Standard day only, so the sum was made on the 8th and credited on the day the window reopened, 28 days later. The hours are posted in the window, where they have been since 2999. Ref. CIBT-3003-1EE5-8		
12 Oct	Payroll credit: Titan Methane Works	+3,418,010	521,277,235
	Titan Methane Works rounds your wage to the nearest five seconds, as it always has, because its office was founded by a clerk who could not abide a remainder. The remainder of 0.965 has been sent on to the Bank's reserve, which did not ask for it and has not sent it back. Ref. CIBT-3003-6673-2		
16 Oct	Memory Vault: box 56-977, quarter	-259,200	521,018,035
	The inventory of box 56-977 was held at the Bronx Sector sub-level for 28 Standard days, because the relay carrying it had to be walked through the lift by hand. The contents are unchanged, and so is the rental. Ref. CIBT-3003-06BC-3		
21 Oct	Temporal Health Plan	-25,377	520,992,658
	A consultation at Bronx Sector took place in a waiting room with no windows and a clock that runs a little fast. The plan has accepted the consultation as having happened at the proper hour, and the clock has not been asked to explain itself. Ref. CIBT-3003-8553-1		
22 Oct	ATM withdrawal: Bronx Sector	-172,800	520,819,858
	You were the only person at the Bronx Sector machine on the 22nd, and the Teller says you looked as though you had been expecting someone else. The Bank has no record of who, and the Teller has not asked. Ref. CIBT-3003-BECE-9		
24 Oct	ATM withdrawal: Bronx Sector	-259,200	520,560,658
	A withdrawal of 3 Standard days was posted twice, once by the machine and once by the relay that confirmed it. The relay has apologised for the second posting. The machine has not been asked to apologise for the first, since it did not know there would be one. Ref. CIBT-3003-AC63-5		
30 Oct	Event II restoration adjustment	-3,012	520,557,646
	An adjustment made under the Event II Rider as part of the scheduled restoration of affected balances. The Recovery Task Force will publish the reasons for this adjustment in due course. Ref. CIBT-3003-F264-4		
31 Oct	Interest at 4.30% APY	+1,817,933	522,375,579
	Interest is posted to the whole second and never to a fraction. A balance that earns 0.985 of a second a day is not credited each day, but accumulates until it makes a second, which it does on the 31st, in your favour. Ref. CIBT-3003-046F-2

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
