Opening balance	Credits	Debits	Closing balance
135,293,182 s	**+507,349 s**	**-22,167,812 s**	**113,632,719 s**

Date	Description	Amount (s)	Balance (s)
08 Jan	ATM withdrawal: New Orleans Sector	-259,200	135,033,982
	Montréal Sector Transit asked the office at New Orleans Sector to keep the machine stocked on the 8th, and it has been stocked on that day ever since. Your withdrawals on that date are the only ones the Bank has been asked to schedule around, and it has done so without comment. Ref. CIBT-3003-C755-6		
09 Jan	ATM withdrawal: New Orleans Sector	-172,800	134,861,182
	For 35 minutes the machine at New Orleans Sector kept your card while it decided whether the previous customer had left it in the slot. The previous customer had, with some ceremony, and the card was released with the same ceremony. Ref. CIBT-3003-9523-9		
18 Jan	Transfer to own account: New Orleans Sector	-21,733,412	113,127,770
	Montréal Sector Transit has asked the Bank to charge its own sundries to your account, refund them to the firm, and send the firm a statement showing that the two cancel out. They do, to the second, which the firm has found alarming. Ref. CIBT-3003-23D4-9		
26 Jan	Slippage fee (New Orleans Sector, 8 transfers)	-2,400	113,125,370
	The relay at New Orleans Sector apologised for the delay in writing, and the Bank considers a written apology to be a form of payment. No fee is due on the 8 crossings this month. Ref. CIBT-3003-314E-9		
31 Jan	Interest at 4.50% APY	+507,349	113,632,719
	The rate was applied to the balance and the product rounded down, always and never up. A second owed is a second kept, and this statement was drawn on that view. Ref. CIBT-3003-80C3-0		

Closing balance, month by month

February 3002 January 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
