Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
428,515,157 s	**+4,849,942 s**	**-807,348 s**	**432,557,751 s**

Date	Description	Amount (s)	Balance (s)
07 Jul	ATM withdrawal: Phobos	-259,200	428,255,957
	The 7th withdrawal was taken in sols at Phobos, which the Teller describes as sensible, and then paid back in at the Hall E counter that afternoon, which she describes as the other thing. Ref. CIBT-2987-27E4-4		
08 Jul	Memory Vault: box 67-100, quarter	-259,200	427,996,757
	Box 67-100 was inspected on the 8th with the holder's permission, granted in advance and in writing. The custodian was asked whether anything had changed and said nothing had; the answer has been entered in the holder's own word, which is "still". Ref. CIBT-2987-FB2E-3		
10 Jul	ATM withdrawal: Phobos	-259,200	427,737,557
	You fold each note in half before putting it away. The custodian has begun to fold them for you, so that you can no longer tell the difference. Ref. CIBT-2987-A2B0-7		
18 Jul	Temporal Health Plan	-29,748	427,707,809
	No charge was taken for the second copy of your explanation of benefits. The first was enough for the plan. The second is for you, which the plan regards as a fair division of the paperwork. Ref. CIBT-2987-80CF-9		
25 Jul	Deposit: Hall E	+3,457,268	431,165,077
	You seal every envelope with the same brass seal, and the officers have stopped checking it against the file. The seal is now the one thing on the envelope that anyone at Hall E can identify without looking. Ref. CIBT-2987-C4F9-4		
31 Jul	Interest at 3.90% APY	+1,392,674	432,557,751
	The interest for 31 days was held up because the Rate Committee's table was printed in sols and had to be turned back into seconds by a clerk who was not sure which way the conversion ran. It ran the right way once it was checked, and the clerk has asked for a column in the table to say which way. Ref. CIBT-2987-F049-5

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
