STATEMENT OF ACCOUNT

Standard Time Deposit

Hamid Valderrama-Eskeland
Unit 107, Pallas Ring 10

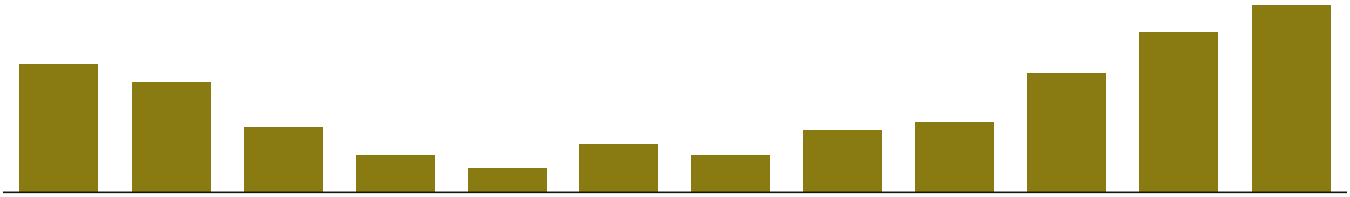

Account 8564-7984-5708
Period 1–31 August 2990
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
1,169,832,750 s	**+63,867,125 s**	**-5,495,058 s**	**1,228,204,817 s**

Date	Description	Amount (s)	Balance (s)
09 Aug	Payroll credit: Phobos Drydock	+8,438,430	1,178,271,180
	Wages from Phobos Drydock, credited after the wage rule rounded them down to the whole second. The fraction left over, 0.975 of a second, is carried to your next credit and rounded the same way there; it is not lost, and the rule has never said why it is always the smaller figure that wins. Ref. CIBT-2990-9313-0		
15 Aug	ATM withdrawal: Svalbard	-259,200	1,178,011,980
	You have never collected the change on a withdrawal at Svalbard. The Bank asked whether you would like it posted to the account, and you said you would prefer the machine to keep it. The Teller has entered this as a standing instruction, which the machine has accepted without remark. Ref. CIBT-2990-33A0-7		
15 Aug	Deposit: Hall E	+51,626,739	1,229,638,719
	The quarterly deposit of 51,626,739 from 8564-9458-8283 came in on the 15th, two days before the Bank's own calendar expected it. Nothing is due for the early arrival, and nothing has been asked of the sender. Ref. CIBT-2990-A144-0		
18 Aug	ATM withdrawal: Svalbard	-172,800	1,229,465,919
	The posting was held 28 days because the receipt paper at Svalbard had to be counted. The count then had to be declared correct by someone who had not been present for it. Ref. CIBT-2990-4A43-2		
29 Aug	Transfer to joint account	-5,063,058	1,224,402,861
	You and Mateo Lindqvist-Fothergill take the joint statement home every month and bring it back the next morning, each with one small mark in the same margin. The marks are not explained, and the officer has stopped trying to read them. Ref. CIBT-2990-F8BE-3		
31 Aug	Interest at 3.90% APY	+3,801,956	1,228,204,817
	A fraction of a second's interest was held back at the close of the period, because the day-count ended on a holiday at Svalbard. The fraction is credited in the next period, with interest on it. Ref. CIBT-2990-1CD3-7		

Closing balance, month by month

September 2989 August 2990

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
