Period 1–31 May 3003
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
112,928,437 s	**+14,465,015 s**	**-311,353 s**	**127,082,099 s**

Date	Description	Amount (s)	Balance (s)
10 May	Payroll credit: the Lunar Freight Co-operative	+1,176,074	114,104,511
	The Lunar Freight Co-operative transfer was split between your two accounts at the counter, in pencil, and the officer said the arithmetic was the only part of it that had been difficult. Both halves are correct. Ref. CIBT-3003-E85F-6		
11 May	ATM withdrawal: Kepler Ring	-172,800	113,931,711
	The officer on the concourse says the machine at Kepler Ring has never once given back the exact amount requested, and that you have never once asked it to. Ref. CIBT-3003-38A0-8		
14 May	ATM withdrawal: Kepler Ring	-86,400	113,845,311
	Taken out on the morning the Lunar Freight Co-operative posted your pay, at Kepler Ring. Cash taken on the day wages arrive is, the officer on the concourse says, the oldest arrangement on the platform, and the machine has never asked for an explanation. Ref. CIBT-3003-B83B-7		
20 May	Event II restoration adjustment	-50,053	113,795,258
	Restoration adjustment under the Rider. Adjustments of this kind cannot be disputed until the Task Force has published its reasons. Ref. CIBT-3003-2552-4		
20 May	Deposit: Hall E	+12,893,692	126,688,950
	You talk about the sleet on a world you have not visited before each deposit, and the Teller answers in the same terms, so the counting is done in the space between two sentences about the weather. Nobody at Hall E has ever asked which world it is, and nobody has needed to. Ref. CIBT-3003-8939-9		
26 May	Slippage fee (Kepler Ring, 7 transfers)	-2,100	126,686,850
	You always ask for the slippage to be read back to you before you send, and you always send after it has been read. The Bank has no rule against this and has seen no reason to write one. Ref. CIBT-3003-A934-3		
31 May	Interest at 4.20% APY	+395,249	127,082,099
	Interest for 30 days was held at the relay at Kepler Ring until a second officer there confirmed the rate. The rate was the one posted here, which she said she had expected, and the days are paid in full. Ref. CIBT-3003-EF55-3		

Closing balance, month by month

July 3002 May 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
