Period 1–30 June 2991
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
1,354,584,950 s	**+12,172,045 s**	**-177,826,527 s**	**1,188,930,468 s**

Date	Description	Amount (s)	Balance (s)
08 Jun	Payroll credit: Titan Methane Works	+8,559,819	1,363,144,769
	The Teller counted the Titan Methane Works wage and noted that it matched the remittance advice exactly. She asks that this be recorded, since it is the first time it has happened on this account, and she has been asked to say so for the file. Ref. CIBT-2991-7A4B-1		
13 Jun	Transfer to own account: Ganymede	-177,736,527	1,185,408,242
	You receive every sundry credit at the counter, not by relay, and count the coins yourself before you sign. The officers no longer recount them. They have never found an error, and they would like you to know that they checked. Ref. CIBT-2991-6D93-3		
14 Jun	ATM withdrawal: Ganymede	-86,400	1,185,321,842
	Titan Methane Works has asked that its staff's cash-time be drawn in a single sum on the first day of the month. You are the only member of staff who has asked the machine to split it, and it has agreed, on your account, twice. Ref. CIBT-2991-250E-3		
15 Jun	Slippage fee (Ganymede, 4 transfers)	-3,600	1,185,318,242
	You have started sending a small transfer the moment the Ganymede relay opens, ahead of the day's larger crossings. The rest of the day then goes through with less argument, and the officer on the counter has written this down as a sensible habit. Ref. CIBT-2991-B814-6		
30 Jun	Interest at 3.20% APY	+3,612,226	1,188,930,468
	The posted rate is set to two places and the interest to the nearest second, and the balance on the statement is then rounded to the nearest five hundred seconds for the reader's convenience. That is why the top line is always a little kinder than the one below it. Ref. CIBT-2991-A891-0		

Closing balance, month by month

July 2990 June 2991

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
