Date	Description	Amount (s)	Balance (s)
08 Jun	ATM withdrawal: Kepler Ring	-86,400	1,745,718,198
	The 0.30 s charge on this withdrawal has not been taken. It fell due on the 8th, and on reflection the Bank decided that a fee on an amount this small would inconvenience everyone concerned, including the fee. Ref. CIBT-2997-4C1A-2		
12 Jun	Payroll credit: Titan Methane Works	+8,559,819	1,754,278,017
	Titan Methane Works rounds each wage to the whole turn and sends the odd 0.979 as an unsigned slip in an envelope that the counter marks "change". It is the only envelope in the file that nobody has asked to see. Ref. CIBT-2997-70F4-4		
14 Jun	Slippage fee (Kepler Ring, 2 transfers)	-600	1,754,277,417
	Note for the auditors: the 2 crossings were logged by a relay that keeps its own errors in a separate book. The errors total 1,200 seconds, all in your favour, and the book has been sealed by the auditors with a note across the seal in their own hand. Ref. CIBT-2997-5808-2		
20 Jun	ATM withdrawal: Kepler Ring	-86,400	1,754,191,017
	Withdrawal from the Automated Temporal Machine at Kepler Ring. The machine asked you to confirm your identity twice; this is routine after a change of world and is not a sign that anything is wrong with your account. Ref. CIBT-2997-1361-2		
29 Jun	Transfer to own account: Kepler Ring	-164,227,472	1,589,963,545
	A second copy of a statement that had gone astray in the post was charged at 0.30 s. The Teller remarked that the first copy was the one that had been mislaid, and that the second had been in her drawer all along. Ref. CIBT-2997-769B-1		
30 Jun	Interest at 3.20% APY	+4,655,478	1,594,619,023
	A second of interest accrued on this account in 2994 is carried forward from a ledger page nobody has been able to name. It has been added to the balance, as the Bank does with seconds it cannot account for. Ref. CIBT-2997-7320-3
