Period 1–31 January 3002
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
773,240,691 s	**+276,507,996 s**	**-261,000 s**	**1,049,487,687 s**

Date	Description	Amount (s)	Balance (s)
15 Jan	Payroll credit: Titan Methane Works	+8,559,819	781,800,510
	Wages from Titan Methane Works paid at Svalbard cover the local month, which is shorter than ours by a few of that world's days. The Bank has not been asked to adjust the sum, and has not offered to. Ref. CIBT-3002-18DB-6		
18 Jan	Slippage fee (Svalbard, 6 transfers)	-1,800	781,798,710
	The Teller has never once heard the relay apologise for a slow crossing, and has never asked it to. She considers the arrangement suitable to both of them and to neither. Ref. CIBT-3002-F8FA-8		
20 Jan	Memory Vault: box 88-730, quarter	-259,200	781,539,510
	Auditors' query on box 88-730: the register gives an address at Svalbard, the rent is paid from Hall E, and the holder has not been seen at either since 3001. The Vault regards the three facts as consistent and has entered the sum. Ref. CIBT-3002-5882-2		
22 Jan	Deposit: Hall E	+265,886,202	1,047,425,712
	A deposit from the Mars branch is entered on the local sol and credited on ours, so it sits a few days older on this statement than it did in the envelope. The Mars office asks us to say that the sol was long. Ref. CIBT-3002-C102-1		
31 Jan	Interest at 3.20% APY	+2,061,975	1,049,487,687
	Credited while you were at lunch, the interest was, in the Teller's view, the first sensible use anyone has made of the Bank's time this quarter. Ref. CIBT-3002-4E1D-5		

Closing balance, month by month

February 3001 January 3002

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
