Date	Description	Amount (s)	Balance (s)
02 Oct	Payroll credit: Titan Methane Works	+8,559,819	963,319,899
	Overtime from Titan Methane Works, worked on Delhi Sector and paid in days. Overtime is rounded to the nearest whole unit, which is why the figure is slightly below your timesheet's sum. Ref. CIBT-3003-C0BE-8		
06 Oct	Deposit: Hall E	+157,220,582	1,120,540,481
	You stand a little back from the window while the Teller counts, and step forward only when she has finished, a habit the counter has come to expect and not to question. Ref. CIBT-3003-B23D-3		
08 Oct	Memory Vault: box 88-730, quarter	-259,200	1,120,281,281
	The seal on box 88-730 was reapplied 31 days after the quarter, following a question about whether wax counts as a seal under the Vault's own terms. The schedule says it does. The question was put to the wax, which said nothing and was accepted. Ref. CIBT-3003-2DAA-6		
14 Oct	ATM withdrawal: Delhi Sector	-259,200	1,120,022,081
	Why this withdrawal took 38 minutes was the auditors' question. The relay's log shows the machine waiting for the Bank's confirmation and the Bank waiting for the machine. The auditors have found this to be nobody's fault, and have recorded it as their finding. Ref. CIBT-3003-8BE4-1		
31 Oct	Interest at 3.20% APY	+2,546,026	1,122,568,107
	The Teller weighed the interest slip on the branch's paper scale, which is not calibrated for money, and reports that the slip is heavier than the sum it carries. She considers this a fair division of the work. Ref. CIBT-3003-F96F-9

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
