Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
26,492,948 s	**+2,122,775 s**	**-462,427 s**	**28,153,296 s**

Date	Description	Amount (s)	Balance (s)
07 Jun	Deposit: Hall E	+1,807,275	28,300,223
	The deposit appeared on your statement with the date of the slip and not the date of the count. The counter was open on the day written, and the slip had been written the evening before, which the counter found perfectly reasonable of it. Ref. CIBT-2999-9652-5		
18 Jun	Payroll credit: Belt Ore Consolidated	+153,415	28,453,638
	Belt Ore Consolidated pays in arrears, on a schedule its own office describes as "when the ledger closes". This credit is for the period before last. It is shown on the date it arrived, which is the only date the Bank can vouch for. Ref. CIBT-2999-725B-5		
19 Jun	Temporal Health Plan	-28,627	28,425,011
	A replacement pair of spectacles was paid for on the understanding that the old pair would not be found, which the plan regards as the normal condition of spectacles. The old pair was found on New Orleans Sector the following week and has been filed with the claim. Ref. CIBT-2999-FCF9-5		
22 Jun	ATM withdrawal: New Orleans Sector	-172,800	28,252,211
	The New Orleans Sector machine sits in a cold alcove, and the notes it dispenses are a little stiff for the first minute. The custodian asks that you not hold this against the machine, which is doing its best in a bad position. Ref. CIBT-2999-140E-9		
25 Jun	Slippage fee (New Orleans Sector, 3 transfers)	-1,800	28,250,411
	Your 3 crossings waited at the New Orleans Sector relay for 28 Standard days while a new operator asked the relay for its own reading before touching anything. The reading was written on the transfer slip, and the slip is the only record of it. The crossings have since gone through, and the slippage is charged for the crossing and not the wait. Ref. CIBT-2999-DAEE-2		
27 Jun	ATM withdrawal: New Orleans Sector	-259,200	27,991,211
	3 Standard days withdrawn at New Orleans Sector, where the machine stands in the arrivals hall between the lifts and is used mostly on the day of arrival. Cash was held behind a second screen of frosted glass while the relay confirmed the balance, and was paid out in full. Ref. CIBT-2999-3CD3-8		
28 Jun	Mech Veterans' Time Pension	+58,321	28,049,532
	The Office's clock that governs the payment morning was found on the 28th to be a week behind the calendar. The payments went out on the right morning anyway, and the clock has been reset out of respect. Ref. CIBT-2999-9F5D-9		
30 Jun	Interest at 4.70% APY	+103,764	28,153,296
	The interest was credited a second early, on the strength of a clock at New Orleans Sector that the local office has since admitted was running fast. The early second has been taken back, and the sum is correct to the second. Ref. CIBT-2999-E235-4

July 2998 June 2999

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
